

ANTARCTICA IN A DAY

The world's most unique scenic flight

EXPERIENCE INCREDIBLE ANTARCTICA

Beyond the tip of the iceberg

Welcome to Antarctica – the world’s last great wilderness. Aboard a cruise ship you would only touch the edge of the coast. Aboard our privately chartered Qantas 747, you will glide over a continent that escapes the boundaries of perception. Become one of the privileged few to witness the desolate beauty of this untamed polar desert. With 19 planned routes to match the day’s weather conditions, we ensure optimal viewing for everyone on board. We’ve been exploring Antarctica by air since 1994 – that’s over 20 years pioneering a land that remains almost entirely undiscovered.

We invite you to join us to continue its great discovery...

A once in a lifetime adventure

You’re en route to the icy expanse of Antarctica – without a jacket. But then aboard our privately chartered Qantas 747, the standard rules of travel go out the window. The atmosphere on board is electric. You’re all present for the same reason – to fulfil that bucketlist dream of exploring an uncharted continent, without even getting your feet wet. And with up to four hours over the ice and the remaining hours to enjoy the bespoke service – including premium drinks, delicious meals and talks from Antarctic expeditioners – it’s an experience like no other.

Australia is the only country from which you can take a sightseeing flight over the frozen south.

Every departure is different – no two flights are the same...

“

Here and there are cracks across the barren landscape like the fine shatter-line on a broken mirror. It's an eerie, utterly uninhabited world above which we spend hours of compelling and companionable cruising.

”

Anthony Dennis

(Sydney Morning Herald)

Welcome to the wilderness

Anticipation blooms as the first icebergs come into view. The vast expanse of beautiful landscape that stretches before your eyes is as graceful as it is untamed, expansive and wild. As the plane soars in a figure eight pattern, you drop down to 10,000feet – close enough to capture the subtle changes in shadow and the nuances of blue and pink marbled over the dazzling great white.

Welcome to a continent with no permanent human residents, no currency and no government. The borders stretch further than the eye can see.

This kingdom is yours...

NATURE'S MASTERPIECE

It's over 100 years since Ernest Shackleton made his pioneering expedition across the South Pole. Knowledge of the driest, coldest and windiest continent on earth has come a long way since then...

Antarctica Facts

- > Antarctica is larger than Europe and twice as big as Australia, but only 2% is ice-free
- > It's the world's driest continent, with an annual snowfall equating to just 200 millimeters of water. That's even less than the annual rainfall of the world's hot deserts!
- > The entire continent of Antarctica has just one ATM
- > The coldest temperature ever recorded on earth was in Antarctica: -89.6°C at Vostok station in July 1983
- > Antarctica holds 70% of the planet's fresh water and 90% of the planet's freshwater ice. The average ice sheet is a whopping 1.4 kilometres thick!
- > Antarctica is the only continent which doesn't have its own endemic species of ant
- > During winter the pack-ice zone in the Southern Ocean almost doubles in size, extending to between 19 and 22 million square kilometres
- > Australia has three permanent bases in the wilderness: Mawson (1954), Davis (1957) and Casey (1969). Don't forget to give them a wave if we fly over!
