PHILADELPHIA

BUILT TO **PERFORM**

We build performance cars. Driver-first, experience-boosting, safety-minded performance cars. And we build them for people like us – people who drive a car not to stand out from the crowd, but rather apart, who choose a car for no one but themselves. Get behind the wheel of an Acura and feel it for yourself.

Hello Philadelphia and welcome to your 2017 Auto Show!

I use the term “your” because that is exactly what this event is all about...you. We are delighted to offer you a one-of-a-kind Auto Show developed to entertain and inform you about the latest advancements in the automotive industry. If it’s your first time here, we are happy to have you. If you are an annual attendee, welcome back! We hope you find this special program book helpful as you navigate this year’s show floor. As a reminder, it features the details of hundreds of vehicles available in the marketplace as well as information on automobile dealerships that are closet to you should you find something that “moves you” on the show floor.

As you enjoy the 2017 Philadelphia Auto Show, please know you are supporting several great causes right in your backyard. The Automobile Dealers Association of Greater Philadelphia, owners and producers of this event, donate \$2.00 from every Auto Show ticket sold to the Auto Dealers CARing for Kids Foundation to support initiatives that enhance the lives and wellbeing of thousands of area children. One of these initiatives is the Foundation’s Driving Away the Cold program, which has distributed more than 265,000 brand new winter coats to local children that need them most. In addition, more than \$6.9 million has been donated to The Children’s Hospital of Philadelphia via the Foundation and Association since 1986. You can read more about both efforts in the coming pages of this unique guide.

Further, this event is vitally important to the regional marketplace as it influences more than \$3 billion of all vehicles sales in our region. Each year, we proudly welcome 250,000 people with an average of 94 percent of those in the market for a new vehicle reporting that the show has helped or will help with their purchase decision. In addition, the show generates an annual economic impact of \$50 million on the City of Philadelphia and the Commonwealth of Pennsylvania. Like I said before, we try and keep it all about you, the great people of the Delaware Valley. Whether it’s giving you the perfect venue to browse and compare all your vehicle options, a nearby place to bring the family for a day of fun or an opportunity to grow our communities, both philanthropically and economically. We’ve been hosting this show for 116 years and we are proud to offer it once again. So go ahead, it’s time for you to enjoy it.

CITY OF PHILADELPHIA

OFFICE OF THE MAYOR
215 City Hall
Philadelphia, PA 19107
(215) 686-2181
FAX (215) 686-2180

JAMES F. KENNEY
Mayor

January 27, 2017

Dear Friends:

It is my pleasure to welcome you to the 2017 Philadelphia International Auto Show.

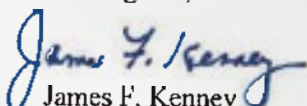

For over a century, the Auto Show has been a destination event attracting individuals and families from across our City and throughout the Philadelphia region to the Pennsylvania Convention Center to view hundreds of new, exciting, and exotic automobiles, from classic to concept vehicles produced by national and international manufacturers.

On behalf of the City of Philadelphia, I salute the Automobile Dealers Association of Greater Philadelphia for producing such a high caliber, entertaining show, as well as commend their ongoing endeavors to improve the quality of life for the children of our communities through the work of the Association's allied Auto Dealers CARing for Kids Foundation.

To date, the Philadelphia area's auto dealers have donated more than \$6.9 million to the Children's Hospital of Philadelphia supported by funds raised through the Foundation's Black Tie Tailgate. The Foundation has also donated an approximate 265,000 new winter coats to area children via its "Driving Away the Cold" effort. For every ticket purchased to the Philadelphia Auto Show, \$2 is contributed to the Foundation to support this campaign and many other worthy endeavors.

I know that you will enjoy your experience of the 2017 Philadelphia International Auto Show. I also invite you to take this opportunity of being in our beautiful City to explore the wonderful dining, shopping, cultural attractions, and historic landmarks of Philadelphia and encourage you to return to visit us again soon, and often.

Best regards,

James F. Kenney
Mayor

DRIVING MATTERS[®]

mazda

MazdaUSA.com

¹Smart City Brake Support operates under certain low-speed conditions between about 2 and 18 mph. It is not a substitute for safe and attentive driving. Factors including movement and shape of the object in front of the vehicle, weather and road conditions can all impact automatic stopping. ²Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA) New Car Assessment Program (www.SaferCar.gov). ³Ranking as of November 2016.

COMMONWEALTH OF PENNSYLVANIA
OFFICE OF THE GOVERNOR

GREETINGS:

It is my pleasure to join with the Automobile Dealers Association of Greater Philadelphia (ADAGP) to welcome everyone to the 2017 Philadelphia Auto Show.

Automobiles have made a long and lasting impression on American culture and have played a vital role in the commonwealth's history. Since its inception in 1904, ADAGP has been steadfast in its mission to support, promote, and protect the common interests of franchised new car and truck dealers of the Greater Philadelphia area. This year's event will display the newest models from automobile manufacturers around the world and provide consumers with a unique opportunity to learn about the latest innovations. Attracting consumers and collectors alike, this year's event is one of the largest auto shows in the United States, bringing over 250,000 visitors to the commonwealth. I commend the sponsors and members of ADAGP for making this event possible, and I am certain that this year's auto show will be a success.

As Governor, and on behalf of all the citizens of the Commonwealth of Pennsylvania, I am thrilled to welcome everyone to the 2017 Philadelphia Auto Show. Please accept my best wishes for an enjoyable event.

GROWING & GIVING

There is nothing like the Black Tie Tailgate at the Philadelphia Auto Show. It is THE best charity gala in the area. It has it all, including a one-of-a-kind menu created by the city's finest chefs, top notch entertainment, guests dressed to the nines and most importantly, proceeds benefiting Children's Hospital of Philadelphia (CHOP).

The Black Tie Tailgate grows in popularity each year. In 1986, the Philadelphia Auto Show donated \$50,000 in proceeds to Children's Hospital of Philadelphia. Thirty years later, in 2016, the Black Tie Tailgate, with the help of almost 5,000 guests, raised nearly \$600,000 for CHOP. The funds supported the creation of a Leukodystrophy Center of Excellence, a comprehensive clinical and research program for infants, children and youth with serious brain disorders. The program offers a multidisciplinary care clinic as well as exciting advances in enzyme and gene therapy. [Continued on page 15](#)

Dr. Banwell (center) and friends on the red carpet during the 2016 Black Tie Tailgate

SOME CRAVE THE SPOTLIGHT. OTHERS CREATE IT.

With the latest technologies, award-winning safety and class-leading space, the 2017 Hyundai Sonata isn't just ready for the road, it's ready for the spotlight. Hyundai. Better drives us.

Hyundai is a registered trademark of Hyundai Motor Company. All rights reserved. ©2017 Hyundai Motor America.

WE ARE VERY EXCITED TO BE THE BENEFICIARY OF BLACK TIE TAILGATE AGAIN THIS YEAR AND WE LOOK FORWARD TO EXCEEDING OUR FUNDRAISING GOALS.

Dr. Brenda Banwell, division chief and co-chair of the Black Tie Tailgate

Continued from page 13

The Division of Neurology at CHOP, which is among the largest in the world offering cutting edge strategies to diagnose and treat both common and rare neurological disorders, remained the beneficiary for 2017.

"The Neurology faculty at CHOP is committed to cutting edge research and treatments to help children with stroke, traumatic brain injury, seizures, headache, multiple sclerosis, inherited diseases such as leukodystrophies, neuromuscular disorders including muscular dystrophy and spinal muscular atrophy and more," said Dr. Brenda Banwell, division chief and co-chair of the Black Tie Tailgate. "We are very excited to be the beneficiary of the Black Tie Tailgate again this year."

Funds raised through the 2017 event will be used to accelerate care and research for children with neurological disorders, as well as newborns and children with acute brain injury or critical illness. The program staffs numerous general neurologists located in eight satellite locations ready to serve the needs of the community. Some of their exciting advances include:

- A genetic epilepsy program where they investigate the cause of a child's seizure disorder, design models to test what is going wrong, investigate what medications might work best, and then bring the most appropriate treatment to the child.

- A leukodystrophy center of excellence that has recruited one of the world's experts in the field, adding to their already very strong medical and research teams. The goal is to bring the newest and most exciting advances in treatment to children with these rare but very serious disorders.

- A nationally recognized program for children with multiple sclerosis that not only offers a comprehensive care team, but also leads the way in clinical trials and major research into the causes of this disease.

- A neuromuscular program that is involved in over 15 clinical trials for children with muscular dystrophy and very exciting life-saving therapy for babies with spinal muscular atrophy - essentially a childhood Lou Gehrig's disease.

- A headache program that is growing in both scope and treatment opportunities. Infusions, Botox, and pain injection sites are among the treatments offered to children who need them. Pain psychology, wellness and nutrition are key components of headache management for all children.

Did you attend this year's Black Tie Tailgate? If so, we thank you! If you weren't able to join us and wish to support the Division of Neurology and the patients it serves, donate online at phillyautoshow.com. ■

MEET THE PATIENTS

Some of the patients that benefit from the services of the Division of Child Neurology include Jacob, Grace, Claire and Hailey.

Jacob suffered an ischemic stroke at 2 1/2 years old resulting in significant weakness in the left side of his body. He had to relearn how to crawl, cruise and walk.

With the help of the division's Dr. Rebecca Ichord, Jacob has completely recovered. Now 7 1/2 years old, he loves playing sports and swimming in the ocean.

Grace was diagnosed with Friedreich's Ataxia, a relentless, progressive neuromuscular disorder that inhibits a body's ability to regulate its coordination and can

trigger heart problems, diabetes and scoliosis. She is in 9th grade at Episcopal Academy. Grace doesn't dwell on her disease. Though she is often tired by the end of her school day, she loves learning and is a voracious reader with a keen scientific mind.

In August 2015, 6-year-old Claire suffered a mild fall that caused her to become very dizzy and her right side to become very weak. She could not keep her balance to walk, was not

able to talk and lost consciousness. Claire was diagnosed with Hemiplegic Migraine. She spent two months in rehab doing therapy everyday building her strength relearning how to talk, walk and eat. Claire continued outpatient therapy and thanks to Pediatric Neurologist Dr. Daniel Licht she is now a happy little girl in first grade who just loves life.

On the morning of July 5th, 2013, 13-year-old Hailey was reading a newspaper story when her speech became slurred and she quickly lost the ability to speak. After being

admitted to CHOP, she was diagnosed with Anti NMDA Receptor Encephalitis. CHOP became her family's home for the next 261 days. Hailey is now in 11th grade, has joined four different clubs at her high school and was inducted into the prestigious National Honor Society. Hailey's future plans are to go to college where she will pursue her dream of a career helping children.

DID SOMETHING MOVE YOU?

There it is! You found the vehicle of your dreams at the Philadelphia Auto Show. What's next, now that you've found what moves you? A trip to your favorite new automobile dealership where you will work with a salesperson to find the trim level and color perfect for you and to arrange financing. The Philadelphia Auto Show has compiled key terms to help you through the car buying process.

Agreed-Upon Selling Price: The dollar amount the buyer agrees to pay the dealer for the vehicle.

Annual Percentage Rate (APR): Also called a finance rate, this is the interest rate on a loan; a percentage of the amount borrowed that a lender charges annually for the use of its money.

Automatic Transmission: A system that varies the power and torque to a drivetrain without the use of a foot-operated clutch.

Alternator: A device that converts mechanical energy into electrical energy for the purpose of charging the car battery.

Base Price: The cost of the car without options; includes standard equipment and factory warranty.

Collision Coverage: Insurance that pays for damage to your car caused by collision with another car or object.

Comprehensive Coverage: Insurance that pays for damage to your car caused by things other than collision. For example, if your car is stolen or vandalized.

Corporate Average Fuel Economy (CAFE): The government tracks the average fuel economy of all the vehicles produced in a single model-year by each individual manufacturer. CAFE is that rating.

Depreciation: The decrease in a vehicle's market value over time. The amount of yearly depreciation is affected by vehicle condition, resale-marketplace supply and demand, and make and model reputation.

Down Payment: Cash paid up-front by a borrower to reduce the amount financed in a lease or loan.

Drivetrain: Vehicle components which act together to move the vehicle forward or backward. On a rear-wheel drive vehicle, it is the combination of the engine, transmission, differential and drive shaft. On a front-wheel drive vehicle, it consists of the engine, transaxle and drive axles.

Excess-Mileage Charges: Penalties paid at the close of a lease if the lessee drives the vehicle a greater distance than the limit stipulated in the contract.

Extended Warranty: Also known as a service contract, it is an agreement to cover certain specific service and repairs beyond the life of the factory warranty.

Factory Warranty: A factory warranty is issued by the company that made the product purchased. A factory warranty states that the product may be returned, refunded or replaced by the company as long as certain guidelines are met.

Financing Costs: An APR, a money factor, or a rent charge, this is the charge for using the bank's—or another lender's—money to lease or purchase the car. Also known as cost of funds.

Finance Rate: Also called an annual percentage rate; the interest rate on a loan.

Four-Wheel Drive (4WD): A transfer case distributes power to both axles in order to drive all four wheels; also known as all-wheel drive.

Front-Wheel Drive: The front wheels are powered by the engine/transmission, and the rear wheels just follow along. Generally, these cars are more fuel-efficient than their rear-wheel drive counterparts, and they operate more easily in snow.

Interest: Money paid regularly at a particular rate for the use of money lent.

Interest Rate: The proportion of a loan that is charged as interest to the borrower, typically expressed as an annual percentage of the loan outstanding.

Lease: Essentially a long-term rental in which the dealer (or a third-party) buys a car and allows the lessee to use it for a specific period of time or agreed mileage while making monthly payments. At the end of the lease period, the lessee can either buy the car or return it to the dealer, depending on the type of lease.

Lease Extension: An agreement between the lessee and the lessor to continue the lease beyond the initial term, generally without altering the monthly payment.

Liability Insurance: Helps cover the costs of any victims' injuries and damages that result from a car accident that you caused.

Manual Transmission: A transmission that varies the power and torque through a foot pedal controlled clutch and a floor-mounted or steering-shaft-mounted gear selection lever.

Mileage Limit/Allowance: The maximum distance a vehicle may be driven during a lease.

Monroney Sticker: The "window sticker" or price tag on a new vehicle that lists base price, standard features, optional features and their retail prices, among other information.

Powertrain: The combination of engine and transmission.

Pre-Qualify: To have a lender confirm you are eligible for a loan without you committing to accepting it.

Principal: The amount borrowed.

Rear-Wheel Drive (RWD): The drivetrain in which power is applied through the rear wheels only.

Rebate: A partial refund on a new-car purchase offered by the manufacturer or dealership in order to increase sales. Rebates can either be deducted from the purchase price or refunded by mail after the sale has been completed.

Residual Value: The amount for which you can buy the car at the end of a lease. It also is an important number in the lease equation, directly affecting the monthly payment.

Service Contract: Provides for the repair of certain parts or problems.

Term: The length of a lease or loan.

Trade-In Value: The price a dealer will pay for your current car when selling you a new one.

Transmission: The transmission is used to take the high-speed, low-torque power of the engine and convert it to a lower-speed, higher-torque output, which ultimately turns the drive wheels. Lower gears allow fast acceleration, higher gears provide better gas mileage.

Trim Level: The level of options or features added to a model. The car maker selects the attributes of a car to make it a special variant of the basic version, which is the 'factory standard' version and is the cheapest within the range.

Up-Front Costs: The total of all costs that must be paid at the signing of the contract: down payment plus any fees.

Vehicle Identification Number (VIN): A 17 digit identification number, unique to each vehicle, which includes codes for the manufacturer, year, model, body and engine specifications.

ARE YOU READY TO **SHIFT YOUR CAREER** INTO GEAR?

With advances in design and technology, excitement for new automobiles continues to grow. This enthusiasm has led to increased demand for motivated and qualified employees at franchised new car dealerships. If you are looking for an exhilarating, rewarding career, the retail automotive industry represents an excellent opportunity. It is a dynamic industry that is constantly changing to meet the needs of a high-tech society. And it is an industry that offers a wide variety of challenging, well-paying jobs.

The modern dealership is a total transportation center, often with six or more separate operations under one roof: new-vehicle sales, used-vehicle sales, leasing and rentals, finance and insurance, service, body repairs and parts and accessories. Each department employs people with a wide variety of skills who work together as a team to make the dealership successful. There is a great deal of pride and satisfaction in knowing that you have done your job well as part of a successful team. There are many entry-level jobs in an auto or truck dealership, but no one gets “stuck” in these jobs. Regardless of where you start, your willingness to work hard and your skills, experience, education and training are rewarded with better jobs and higher pay. How high you go and how much you earn in a franchised dealership are entirely up to you. The requirements for the many jobs available in franchised new-car dealerships vary from dealer to dealer. But as with any industry, the better prepared you are, the greater your chances of success. If you are in school, stay in school. In today’s very competitive job market, nearly all employers can demand a high school diploma or its equivalent. A

college degree can be a definite advantage if sales or management positions are your goal.

The greatest demand in dealerships is for qualified service technicians. Courses in automotive service are important, and so is a background in business, electronics, mathematics or computer science. Today’s service technicians are more skilled and face more challenges than ever before. Do you think you have what it takes to fix and maintain what are essentially drivable computers? Check out adagp.com/technician to investigate some of the Philadelphia area’s training programs.

Your local dealer is an excellent source of information on training programs and job requirements for careers in their dealerships. Interested? You’ll find hundreds of dealerships listed in the 2017 Dealership Listing section of this book. Visit their websites or showrooms to find out if you’re ready to shift your career into high gear at a new-car dealership. ■

One in six...let's make a difference

One in six. That's how many children in the five-county area of Philadelphia live in poverty, which by federal standards is defined as a family of four living on an annual income below \$24,250. This staggering statistic equates to more than 174,000 children. This fall, area auto dealers teamed up with the Auto Dealers CARing for Kids Foundation, the philanthropic arm of the Philadelphia Auto Show, to combat that statistic through the Driving Away the Cold program.

New vehicle dealers in the five-county Philadelphia area have donated more than 265,000 free new coats to less fortunate children since the program launched in 2008, which equates to \$4.3 million in giving over the last nine years. This philanthropic initiative of the Philadelphia Auto Show and the Auto Dealers CARing for Kids Foundation has one important mission: to ensure that as many children as possible in the greater Philadelphia area have a warm coat for the harsh winter weather and frigid temperatures.

"Thanks to the commitment of local auto dealers, we were able to donate a record 45,070 new winter coats to children in need in southeastern Pennsylvania this fall," said Don Franks, president of the Foundation and J.L. Freed Honda. "A new coat makes it easier for them to get to school every

day for learning and, in some cases, the only two hot meals they have that day."

To put that number of coats in perspective, Citizen's Bank ballpark has 43,647 seats. If you filled every seat in the stadium with a child in a new coat, plus on the field, imagine the impact in the community!

The Auto Dealers CARing for Kids Foundation partnered with the School District of Philadelphia to donate 7,300 coats to Philadelphia school students specifically. At the largest event of the giving season, held at the Pennsylvania Convention Center on October 18th, 1,400 of those coats were hand-selected by children in need from three elementary schools in Philadelphia.

New winter coats have also been distributed through more than 125 social services agencies, shelters, after-school programs, regional YMCAs and more. These non-profit partners identified the children who would benefit most from this gift and distributed the coats in a responsible manner. "Many of the coats go to the children whose families receive financial assistance for our child care programs. We've seen the look of relief and gratitude on the parents' faces when their children receive brand-new winter coats. It's one less financial hurdle for this year and that's a blessing," said Denise Day, president and CEO of the YMCA of Greater Brandywine.

The coats were delivered during the month of October in two Driving Away the Cold trucks, generously donated by Penske Truck Leasing. The trucks clocked many miles throughout the five-county region delivering coats to 18 YMCA branches, which served as central distribution points for the organizations that helped disseminate the bulk of the coats.

The giving culminated at Chester High School on October 28th. With help from dealership volunteers, a new winter coat was given to every elementary school student in the Chester Upland School District in Delaware County, and the volunteers could see first-hand how much the program means to the children and families who benefit from it.

"You know you are doing something right when the children start to ask if they are going to get a new coat this year because they were warm going to school every day the year before. The partnership has removed a burden for the families who have to decide between putting food on the table or clothes on their children," said Claudia Averette of the Chester Upland School District.

Local auto dealers are committed to this initiative. "The program is thriving because of the dealers' generosity and enthusiasm to provide brand new winter coats to kids who need them most, and it will continue to grow with their support. We wouldn't have the ability to continue the program without them," said Kevin Mazzucola, executive director of the Foundation.

The Philadelphia Auto Show also plays an important role in this program by donating \$2.00 from every auto show ticket sold to the Auto Dealers CARing for Kids Foundation to support programs like this. The Foundation board of trustees and the community-at-large is eternally grateful for the kindness of the Auto Dealers CARing for Kids Foundation and the dealers who live and work in the communities we serve. The Foundation's work will continue until the need is met. Thank you to all who consistently help us Drive Away the Cold each year! ■

BODY LANGUAGE IS EVERYTHING.

THE OUTSPOKEN NEW 2017 IS

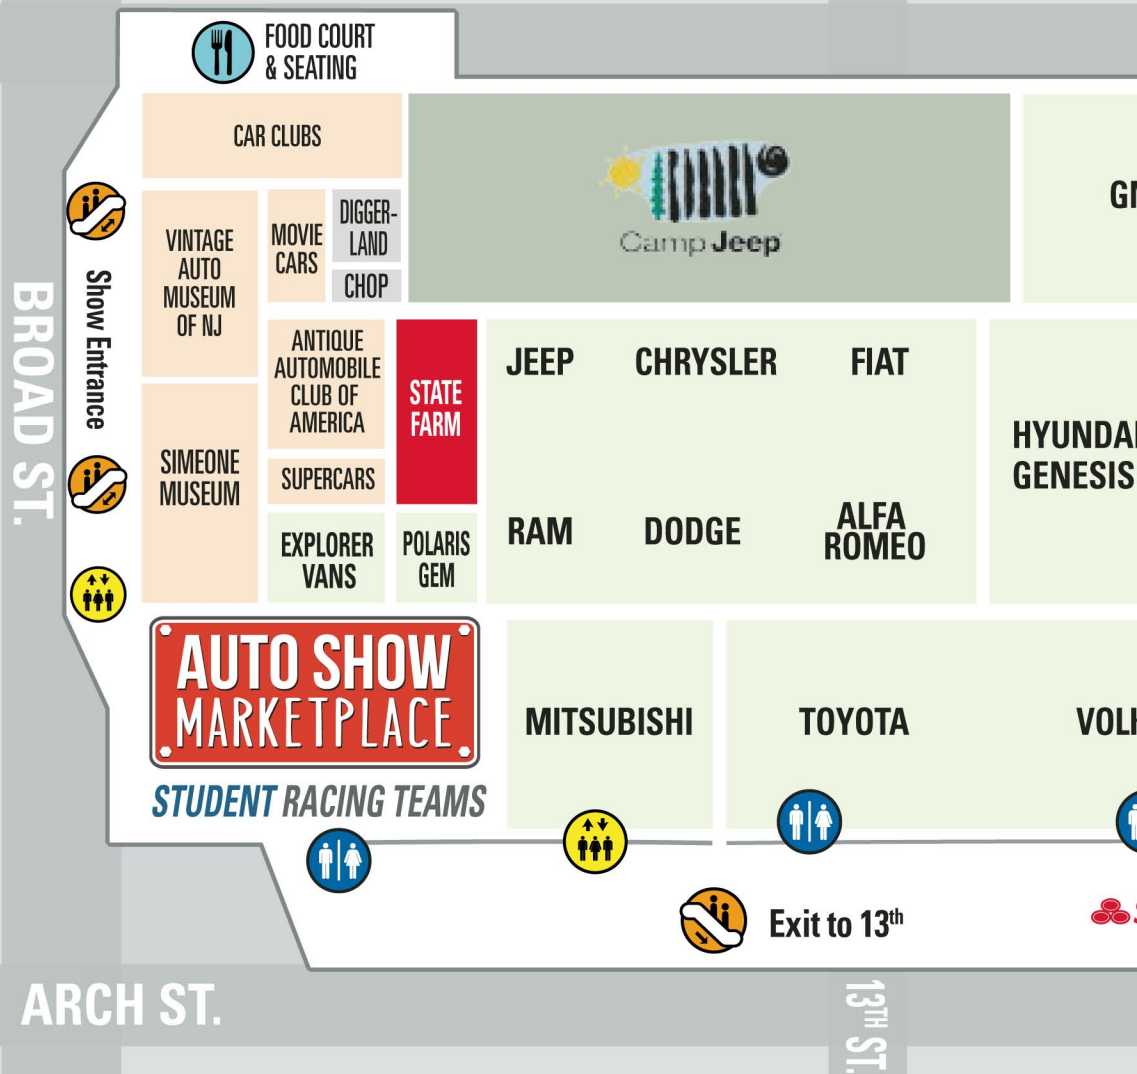

An aggressive stance. A powerful look. An undeniable presence. Often the things we don't say speak the loudest. The new 2017 Lexus IS makes a statement even before you start the engine. Its strong lines, sculpted LED headlamps and bold grille are matched by sporty performance and a dynamic driving experience. Available in F SPORT, the IS 350, IS AWD and IS Turbo prove that some of the most powerful statements don't need words at all.

\$27,990 - \$34,980**Acura ILX**

Engine 2.4L I-4
Horsepower 201
Torque, lb-ft 180
EPA est. mpg 25/35
Drive wheels fwd
Wheelbase, in 105.1
Curb Weight, lb 3113
Transmission 8A

The 2017 Acura ILX retains the popular enhancements introduced last year that helped make it one of the most desired models in the entry luxury segment. Those significant upgrades for the 2016 model year included styling, powertrain, technology, luxury refinement and safety features. The 2017 ILX carries over the freshened exterior styling, including Acura's signature Jewel Eye® LED headlights, 201 horsepower 2.4-liter direct-injected DOHC i-VTEC engine paired with an 8-speed dual clutch transmission with paddle-controlled Sequential Sport Shift, and signature Acura technologies.

**\$43,950 - \$58,400****Acura MDX**

Engine 3.5L V6
Horsepower 290
Torque, lb-ft 267
EPA est. mpg 20/27
Drive wheels fwd, awd
Wheelbase, in 111
Curb Weight, lb 4065
Transmission 9A

Upgrades for 2017 include refreshed exterior styling, including a bold new diamond pentagon grille, and restyled hood, front fenders, side sills, front and rear fasciae and Jewel Eye™ LED headlights. All 2017 MDX models now come with the AcuraWatch™ suite of safety and driver-assistive technologies, a first in the luxury SUV category. All 2017 MDX models also benefit from increased standard luxury and technology features. All MDX models offer a choice of front-wheel drive or Super Handling All-Wheel Drive™. The 2017 MDX is produced at the company's Lincoln, Alabama manufacturing facility.

**\$156,000****Acura NSX**

Engine 3.5L V6
Horsepower 500
Torque, lb-ft 406
EPA est. mpg 21/22
Drive wheels awd
Wheelbase, in 103.5
Curb Weight, lb 3803
Transmission 9A

Created to bring a new experience to the supercar segment, the next-generation Acura NSX challenges conventional beliefs about supercars, with cutting-edge and world-first technologies. Much as the first generation NSX did a quarter century ago, the 2017 NSX breaks the mold through a first-of-its-kind Sport Hybrid Super Handling All-Wheel Drive power unit, a multimaterial body structure, advanced aerodynamics and a cockpit that supports performance driving on every level without sacrificing comfort. The 2017 Acura NSX is the only supercar designed, developed and manufactured in the U.S.

**\$35,570 - \$43,720****Acura RDX**

The 2017 Acura RLX sedan offers a compelling blend of refinement and spirited driving performance, boasting an abundance of standard premium features. The RLX is powered by a powerful and smooth 310 hp, direct-injected DOHC i-VTEC V6 engine that contributes to the flagship sedan's EPA fuel economy ratings of 20/30 mpg (city/highway). The Sport Hybrid RLX model will go on sale soon. The 2017 Acura RLX is available in two grades: the RLX with Technology Package and RLX with Advance Package, each delivering exceptional levels of technology-enhanced performance, comfort and convenience.

Underlining its commitment to building exceptional sports cars that appeal to the most discerning enthusiasts, Aston Martin has ushered in its 2017 model year range by offering the sensational V12 Vantage S with a manual transmission. 2017 also marks other important changes to the Vantage range, with the V8 models now consolidated into Coupe and Roadster versions of the V8 Vantage S. Mechanically unchanged, the V8 Vantage S receives a range of small detail changes to the exterior and interior. Five new option packages offer a broad scope for personalization and even greater value in the V8 Vantage S.

The Continental GT is one of the most iconic cars on the road today, blending classic Bentley design with contemporary styling and modern technology. The range is made up of the luxurious Continental GT V8; the agile Continental GT V8 S; the Grand Touring Continental GT W12; and the supremely fast Continental GT Speed. Each is available as either a coupé or convertible. It takes 110 hours to handcraft each Continental GT. The interiors are handcrafted by the experts in Bentley's Leather and Trim workshop. Each hide is carefully checked by hand and eye before being stitched, shaped and finished entirely by hand.

More than 40 years after its inception, the BMW 3 series is still the benchmark of the segment it invented. Forever evolving, its style and handling make it the most popular Series in BMW's lineup. Each of its three models—Sedan, Sports Wagon and Gran Turismo—guarantee the ultimate thrills. The all-new BMW 330e iPerformance adds another highly innovative variant to the 2017 3 Series lineup with its advanced plug-in hybrid drive system. M Sport Package is now standard on the 340i models, including M Sport Suspension, M Sport Steering Wheel, Aerodynamic Kit, Shadowline Trim, and Increased Top Speed Limiter.

Each model in the 2017 BMW 4 Series lineup—the sleek Coupe, the seductive Convertible, and the stunning Gran Coupe—sits low, evoking a power even in stillness. An aggressively toned exterior joins a driver-oriented interior to make the 4 Series nothing short of irresistible. Engineering features like the low height and stiffer suspension make for incredible handling and agility. And when the BMW TwinPower Turbo engine unleashes up to 300 horsepower, it pairs all that impressive agility with a 0-60 mph time of 4.6 seconds.

All-new BMW M760i xDrive will be unleashed in 2017

The 2017 BMW 7 Series reaches new altitudes in technology, comfort, and performance while integrating them seamlessly into a luxury experience for both drivers and passengers. The all-new BMW 740e xDrive iPerformance has advanced powertrain technology from the BMW i8, and a 2.0 liter, four-cylinder engine roars from 0-60 mph in an impressive 5.5 seconds. Signature BMW TwinPower Turbo technology, combined with an electric motor, generates a combined system output of 322 hp. Several other pioneering BMW technologies are featured, including BMW Gesture Control, wireless charging, Active Kidney Grille and Display Key.

BMW i now offers a new model range of its compact electric car, the BMW i3. The 2017 model year offers a new version with more than 50% increased battery capacity. The BMW i team worked to ensure that the battery dimensions remain unchanged while still offering a significant range increase. In the new Battery Electric BMW i3, in varying weather conditions and with the air conditioning or heating turned on, a range of up to 114 miles combined (highway/city) is possible. The motor propels the BMW i3 from 0 to 60 mph in just over 7 seconds.

BMW i8

Engine	1.5L Turbo/ I-3 Electric
Horsepower	357
Torque, lb-ft	420
EPA est. mpg	76MPGe
Drive wheels	rwd
Wheelbase, in	110.2
Curb Weight, lb	3455
Transmission	2A/6A

The 2017 BMW i8 is no ordinary sports car. With its futuristic design and groundbreaking technology, the i8 operates with extremely low fuel consumption (76 MPGe) and emissions output, and is capable of accelerating from 0-60 mph in 4.2 seconds on the way to an electronically governed top speed of 155 mph. The long wheelbase, short overhangs, precise lines, and sweeping silhouette give the appearance that the BMW i8 is surging forward even when it is standing still. The scissor doors of the BMW i8 provide an undeniable emotional and sporty allure that make it truly one-of-a-kind.

\$33,100 - \$35,100

BMW X1

28i	
Engine	2.0L I-4
Horsepower	228
Torque, lb-ft	258
EPA est. mpg	23/32
Drive wheels	awd
Wheelbase, in	105.1
Curb Weight, lb	3543
Transmission	8A

The 2017 BMW X1 goes far beyond utility, changing everything you know and expect from a Sports Activity Vehicle®. Awarded the IIHS "Top Safety Pick+" with an Advanced front-crash avoidance rating – when equipped with optional front crash prevention – the X1 offers adventure and peace of mind. Add a suite of innovations and handling you would expect from a BMW, and it's easy to see why all aspects of this vehicle truly thrill. The BMW X1 excels in cargo space with an impressive, best-in-class 58.7 cubic feet with the seats folded down.

\$39,250 - \$47,950

BMW X3

Engine	2.0L I-4
Horsepower	240
Torque, lb-ft	260
EPA est. mpg	21/28
Drive wheels	rwd, awd
Wheelbase, in	110.6
Curb Weight, lb	4030
Transmission	8A

The 2017 BMW X3 delivers it all: an agile, yet rugged design, unparalleled performance, intelligent innovations, and the versatility of a Sports Activity Vehicle®. Every element works together to make it the perfect travel companion for wherever you go—whether it's running errands around town or tackling snowy roads. With loads of space, the BMW X3 is perfect for all trips. Its trunk expands from 27.6 cubic feet to 63.3 cubic feet when the rear seat is folded down—giving you multiple storage possibilities. And accessing your gear is easy with Comfort Access: simply wave your foot under the rear bumper to open the trunk.

\$45,550 - \$58,100

See dealer for complete model lineup

You'll have to stand back to take in the entirety of the 3rd generation, 2017 BMW X5. With power that can overtake, capacity that feels infinite, and design that stuns from city streets to winding highways, this car doesn't just embody space—it can escape to a place that has more of it. Rear Comfort seats with enhanced foam padding offer 3" of forward/backward movement, putting passengers in the perfect position to utilize a DVD drive and two optional 10.2" LCD screens. An optional third row seat offers extended capacity, and includes its own climate control.

The BMW Z4 Roadster was designed to make every single drive an indulgence. Its stunning hardtop and elongated hood combine with breathtaking power to create an almost addictive open-top experience that's sure to leave you with your odometer as your only alibi. Its hardtop can open or close in 19 seconds, even at speeds up to 25 mph, and seams perfectly with its long hood to create a unified, flowing exterior that screams muscle, yet manages to stay lean. The Z4 sDrive35is' boost function provides 37 extra lb-ft of torque for a full 7 seconds when you push the pedal to the floor.

**\$33,990 - \$37,885****Buick Cascada**

Engine	1.6L I-4
Horsepower	200
Torque, lb-ft	207
EPA est. mpg	20/27
Drive wheels	fwd
Wheelbase, in	106.1
Curb Weight, lb	3979
Transmission	6A

The 2017 Buick Cascada will offer a new Sport Touring trim. The Sport Touring features True Blue Metallic exterior color, Sterling Silver 20-inch wheels, sport pedals, Black Magic interior trim and flat-bottom sport steering wheel. Buick's signature HiPer Strut front suspension improves ride and handling by reducing torque steer, and offers more linear, communicative steering than conventional strut-type suspensions in the Cascada. Vehicle highlights include: heated leather-wrapped steering wheel, remote vehicle starter, available navigation radio and seven-speaker premium audio system, just to name a few.

**\$39,990 - \$50,440****Buick Enclave**

Engine	3.6L V6
Horsepower	288
Torque, lb-ft	270
EPA est. mpg	15/22
Drive wheels	fwd, awd
Wheelbase, in	118.9
Curb Weight, lb	4724
Transmission	6A

Buick released the new 2017 Enclave Sport Touring Edition – the latest addition to the brand's design-focused Sport Touring Edition lineup and an expressive and athletic appearance for the popular Enclave mid-size luxury SUV. The Sport Touring is highlighted by a Satin Black Ice-toned grille and 20-inch chrome-clad wheels with Satin Black Ice accents. More than a third of Enclave sales come from returning customers. That's the highest loyalty rate among all Buick models and one of the top model-to-model loyalty rates in the crossover SUV segment. Enclave is offered in FWD and AWD, as well as three trim levels.

**\$23,915 - \$32,785****Buick Encore**

	Engine	Sport
Engine	1.4L I-4	1.4L I-4

Drive wheels	fwd, awd	fwd, awd
Wheelbase, in	100.6	100.6
Curb Weight, lb	3237	3237
Transmission	6A	6A

The new 2017 Buick Encore is strengthening the appeal of America's most popular small SUV with more refined styling and new connectivity technology. A new front-end appearance and a new premium interior highlight the visual refinements, while Apple CarPlay and Android Auto are supported by a next-generation IntelliLink system. Push-button start, keyless unlock via the exterior door handles and an 8-inch diagonal color touch screen highlight the Encore's roster of new standard features.

Transmission	6A	6A

The 2017 Buick Envision is an all-new luxury compact crossover with segment-challenging driving dynamics, advanced technology, connectivity and Buick's trademark interior acoustics. It is a global vehicle, designed from the ground up as a Buick luxury compact crossover. The Envision is also designed to carry more than its competitors, with more rear cargo space. It's also roomier for passengers, with more rear legroom, and front and rear shoulder room. The Teen Driver feature allows parents to set controls, review driving habits and encourage safe driving habits even when they are not in the vehicle.

**\$32,990 - \$44,190****Buick LaCrosse**

	Engine	3.6L V6
Engine	3.6L V6	3.6L V6
Horsepower	310	304

Wheelbase, in	111.4	111.7
Curb Weight, lb	3598	3895
Transmission	8A	6A

The all-new 2017 Buick LaCrosse introduces the new face of Buick. The LaCrosse features a new grille design with a large opening distinguished by the return of a three-color – red, silver and blue – Buick tri-shield insignia, accented by wing-shaped elements set against darkened waterfall grille bars. Longer, lower and wider than the previous model, the 2017 LaCrosse is built on a stronger yet lighter structure. It is about 300 pounds lighter than before. The 2017 LaCrosse is offered with a new 3.6L V6 paired to a new eight-speed automatic transmission, featuring Stop/Start and Active Fuel Management.

The 2017 Buick Regal trim levels include Regal 1SV (FWD), Sport Touring (FWD), Regal (AWD), Premium II (FWD and AWD) and Regal GS (FWD and AWD). The Regal has sleek exterior design accented by a low, wide stance, chrome accents and LED lighting. Regal Sport Touring features 18-inch wheels with machined faces and black pockets, plus a unique rear spoiler. Regal GS offers a dynamic driving experience through sophisticated suspension technologies, premium amenities and the exclusive Interactive Drive Control system, which provides various drive modes. New for 2017: Apple CarPlay and Android Auto compatibility.

**\$34,210 - \$61,460****Cadillac ATS/ATS-V**

Cadillac's ATS product line contains key refinements for 2017. Renamed for better customer clarity, the new trim levels – ATS, Luxury, Premium Luxury and Premium Performance – provide richer levels of content and technology. A Carbon Black sport package, two exterior colors and 17" wheels in two finishes are also new for 2017, complementing the bold, unmistakably Cadillac signature exterior and interior design. The 2017 Cadillac ATS Turbo Sedan, the fastest, most powerful turbo-4 luxury sedan in its class, becomes the entry point to the ATS Sedan and Coupe family.

Curb Weight, lb	3657	3926	4085
Transmission	8A	8A	8A

Cadillac recently introduced the all-new Cadillac Touring 6 (CT6), elevating the top of its range and creating a new formula for the prestige sedan through the integration of new technologies developed to achieve dynamic performance, efficiency and agility previously unseen in large luxury cars. Later in 2017, Cadillac will add an all-new Plug-In Hybrid edition of the CT6. The new Plug-In Electric Vehicle (PHEV) technology will more than double the already impressive efficiency of the CT6, while providing excellent acceleration and driving performance.

**\$45,560 - \$86,590****Cadillac CTS/CTS-V**

The Cadillac CTS luxury sedan, the centerpiece of Cadillac's expanded and elevated portfolio, receives new exterior appearance upgrades, technology features and streamlined trim levels for 2017. Re-named for consistency, the new trim levels include CTS, Luxury, Premium Luxury, V-Sport and V-Sport Premium Luxury. Rear Camera Mirror, the industry's first application of full-display technology, is available for 2017 models. Additional upgrades and enhancements for the Cadillac CUE infotainment system include new standard technologies like the myCadillac Mobile App, Teen Driver and Cadillac Collection.

**\$72,970 - \$93,345****Cadillac Escalade**

Curb Weight, lb	5520
Transmission	8A

The 2017 Cadillac Escalade features a modern design, powerful capability and sumptuous amenities that keep luxury firmly in the driver's seat. 2017 updates include availability for a Rear Camera Mirror and Automatic Parking Assist. There are also aesthetic updates, including two new exterior paint colors and a new 22-inch wheel design. The product line includes the standard Escalade and the extended-length ESV edition, which offers approximately 20 inches more in overall length, maximizing space for third-row passengers and providing over two and a half times the cargo space behind the third-row seat.

**\$39,990 - \$63,495****Cadillac XT5**

In 1966, Chevrolet introduced the world to Camaro and a love affair was born. Now, after 50 years of pushing the envelope, advanced performance technology, meticulous design and engineering mastery come together in the sixth-generation Camaro. With refinements that can be seen in every sculpted body line, felt in every turn, and heard in the roar of the four available powertrains, the sixth-generation Camaro is the lightest, leanest and meanest Camaro yet. Chevrolet pays homage to a performance icon with the 50th Anniversary Edition, and the 1LE performance package returns for 2017.

New for 2017, Chevrolet Silverado HD trucks feature a patented air intake system that drives cool, dry air into the engine for sustained performance and cooler engine temperatures during difficult driving conditions. The intake system underwent extensive testing based on the most challenging real-world driving conditions to ensure capable performance no matter the weather. Also new for 2017, the standard Teen Driver Feature encourages safe driving habits with teenagers, enabling parents to view the vehicle's maximum speed, distance driven and the number of times active safety features were engaged during a drive.

Curb Weight, lb	2733	2915
Transmission	5M, 6A	6M, 6A

The 2017 Chevrolet Sonic is a more expressive, sporty take on the brand's fun-to-drive small car. It offers big technologies such as a new MyLink system with segment-exclusive Apple CarPlay and Android Auto compatibility, and a fresh exterior with new LED signature lighting. The updated styling complements new comfort and convenience features, such as an available heated steering wheel and a standard 7-inch-diagonal color touch screen for the MyLink system. Rear Park Assist is also new, adding to one of the most comprehensive safety packages in the segment.

Chevrolet SS

Engine 6.2L V8
Horsepower 415
Torque, lb-ft 415
EPA est. mpg 14/22
Drive wheels rwd
Wheelbase, in 114.8
Curb Weight, lb 3997
Transmission 6M, 6A

The Chevrolet SS combines sports car performance with the sophistication of a luxury sedan. Its 6.2L V8 delivers 415 hp and 415 lb-ft of torque, taking you from 0 to 60 mph in just 4.7 seconds. SS sports sedan features a sculpted, athletic exterior with muscular rear-wheel-drive proportions. Leather-appointed performance seats are built with firm bolsters and include sueded microfiber inserts. The 10-way power seats are heated and ventilated, and with a generous 39.7 inches of rear legroom, your passengers will be comfortable too.

\$50,895 - \$68,635

Chevrolet Suburban

Engine 5.3L V8
Horsepower 355
Torque, lb-ft 383
EPA est. mpg 16/23
Drive wheels rwd, 4wd
Wheelbase, in 130
Curb Weight, lb 5664
Transmission 6A

The Chevrolet Suburban is the original SUV. Introduced in 1935, it is the oldest, continuously produced vehicle nameplate in the industry. Suburban is offered in LS, LT and Premier models, in 2WD and 4WD configurations. The standard 5.3L V8 engine with direct injection and Active Fuel Management provides 355 hp and segment-leading fuel economy: 23 mpg highway. New for 2017 is the standard Teen Driver feature. It encourages safe driving habits with teenagers, enabling parents to view the vehicle's maximum speed, distance driven and the number of times active safety features were engaged during a drive. Premier trim replaces LTZ for 2017.

\$48,195 - \$65,935

Chevrolet Tahoe

Engine 5.3L V8
Horsepower 355
Torque, lb-ft 383
EPA est. mpg 16/23
Drive wheels rwd, 4wd
Wheelbase, in 116
Curb Weight, lb 5356
Transmission 6A

The Chevrolet Tahoe adds several new features for 2017. Chevy's Teen Driver feature, which encourages safe driving habits with teenagers, now comes standard. Perforated, leather-trimmed heated and vented driver and passenger seats are standard on Premier trim, which replaces LTZ. Available rear seat entertainment system upgrades include HDMI/MHL connector, additional USB port, digital headphones and device projection. Low Speed Forward Automatic Braking is available, and front active aero shutters enhance the Tahoe's aerodynamics on the highway.

\$29,595 - \$44,940

Chevrolet Traverse

Engine 3.6L V6
Horsepower 281/288
Torque, lb-ft 266/270
EPA est. mpg 15/22
Drive wheels fwd, awd
Wheelbase, in 118.9
Curb Weight, lb 4713
Transmission 6A

Yes, you can please everyone, because the 2017 Chevrolet Traverse is designed to fit the entire family. Traverse offers seating for up to eight, best-in-class maximum cargo space and active safety technologies. Connected technology such as available built-in 4G LTE Wi-Fi and the refined, comfortable interior make the ride the best part of any trip. Filled with plenty of amenities and style, Traverse is one vehicle for all.

\$29,995

Chevrolet Trax

Engine 1.4L I-4
Horsepower 138
Torque, lb-ft 148
EPA est. mpg 25/33
Drive wheels fwd, awd
Wheelbase, in 100.6
Curb Weight, lb n/a
Transmission 6A

The new 2017 Chevrolet Trax is made for the city and molded for your lifestyle. From its athletic design to available phone integration and advanced safety technologies, every detail is an invitation to explore your city and uncover its hidden gems. The restyled Trax interior feels both premium and practical. The sophisticated front dual-cockpit design makes important functions easily accessible to both the driver and passenger. Trax has you covered with available active safety technologies that alert you to potential hazards on the road. And the 10 standard air bags help protect you in case of a collision.

\$34,095 - \$38,445

Chevrolet Volt

Electric
Engine 1.5L I-4
Horsepower 101g/149e
Torque, lb-ft 294e

Drive wheels fwd
Wheelbase, in 106.1
Curb Weight, lb 3543
Transmission elec.

Offering up to 53 pure electric miles and up to 420 miles with a full charge and a full tank of gas, the new 2017 Chevrolet Volt allows you to make fewer stops, letting you focus on your commute. Plus, Chevrolet expects owners will drive 1,000 miles between fill-ups with regular charging, making the gas station a distant memory. With its 1.5L direct injected high-efficiency engine, Volt is the electric car with a backup plan. It runs on an electric charge and generates additional energy through a gas-powered generator when the battery runs out — giving you the confidence to go as far as you want.

Both the 2017 C-MAX Hybrid and C-MAX Energi feature Ford's acclaimed next-generation power-split technology that enables operation in electric mode at higher speeds than any other hybrid. Standard for the C-MAX line is the company's innovative hands-free liftgate that allows quick and easy access to the cargo area without ever needing to fumble for keys. C-MAX Hybrid and C-MAX Energi offer customers plenty of interior versatility and flexibility, along with the urban maneuverability of a smaller vehicle. Both C-MAX vehicles get their power through the combination of a gasoline engine and a battery-driven electric motor.

The 2017, Honda Accord Sedan and Coupe are available in a variety of trims, with 4-cylinder and V6 powertrains, 6-speed manual and 6-speed automatic transmissions, and a continuously variable transmission. For 2017 Honda is introducing the Accord Sport Special Edition sedan with premium features consisting of leather seats with red stitching, heated seats and "Special Edition" badge. The significantly refreshed 2017 Accord Hybrid, featuring a new version of Honda's two-motor hybrid powertrain technology with both class-leading power and fuel economy ratings, rounds out the 2017 Accord lineup.

Building on its fun-to-drive character, the 2017 Honda Civic offers customers more choice with a 6-speed manual transmission. For 2017, the Honda Civic Sedan and Coupe EX-T now feature the sporty and engaging six-speed manual transmission paired with a 1.5-liter direct-injected and turbocharged DOHC engine producing a peak 174 hp and 167 lb-ft of torque – up 5 lb-ft compared to models equipped with the Continuously Variable Transmission (CVT). The CVT remains optional on turbocharged EX-T trims, while standard on EX-L and Touring. Civic EX Sedans also now add HD Radio™ and XM Satellite Radio®.

Following the U.S. launch of the Honda Clarity Fuel Cell in California in late 2016, the Clarity Electric will go on sale in 2017. The Clarity Electric will be the first affordable, midsize, five-passenger battery electric vehicle to offer premium content and features. The third vehicle in the Clarity series, the Clarity Plug-In Hybrid, will launch in all 50 states later in 2017 and will be the volume leader in the series, seamlessly combining an all-electric driving range in excess of 40 miles with a hyper-efficient gasoline-hybrid extended range mode.

Introducing the 2017, all-new 5th-generation Honda CR-V! The fifth generation of CR-V builds on the fundamental formula of the previous four generations, with its just-right size, features and price. The new CR-V will feature an all-new platform and powertrain - with its first application of turbo-charging, making this one of CR-V's most comprehensive redesigns to date. Visually, this change is characterized by a wider, more broad-shouldered stance, longer wheelbase, more sharply sculpted body and premium detailing including LED headlights and taillights.

Torque, lb-ft	127/140
EPA est. mpg	36/39
Drive wheels	fwd
Wheelbase, in	95.9
Curb Weight, lb	2648
Transmission	6M, CVT

Hybrid. Sportscar. The 2017 Honda CR-Z proves that opposites can coexist. With a 39-mpg highway rating and an available 6-speed manual transmission, it's one of the most efficient ways to have fun on four wheels. The CR-Z has leather-trimmed seats that are stylish, comfortable and provide lateral support through twisty turns (EX-L Navi). No need to turn the ignition, press it! The CR-Z can identify when your key is inside the vehicle, and it all starts with the push of a button. The available CVT drives like an automatic, while offering smooth acceleration in addition to impressive fuel efficiency.

Honda continues to strengthen its position in the three-row SUV segment with fresh updates to the award-winning Honda Pilot for the 2017 model year. The 2017 Pilot is available with Apple CarPlay™ and Android Auto™ functionality, a new fingerprint resistant touchscreen and an expanded interior color palette. The Pilot features comfortable seating for up to eight passengers and a cargo area that can hold an 82-quart cooler without compromising third-row seating capability. Third-row entry and exit is easy and intuitive courtesy of the available one-touch second-row seat on EX-L and above models, and large third-row entryway.

The iconic 2017 Jeep Wrangler features a standard eight-speaker audio system and an optional Premium Alpine Audio Package that includes nine Alpine speakers, a subwoofer and a 552-watt amplifier. The 2017 Jeep Wrangler delivers unmatched off-road capability with legendary four-wheel drive and is produced with more than seven decades of 4x4 engineering experience. Wrangler continues to offer a body-on-frame design, front and rear five-link suspension system, live axles, electronic lockers, and is one of the few mid-size SUVs that offer a six-speed manual transmission, in addition to its five-speed automatic.

\$130,000*

Karma Revero

Engine	Hybrid 2.0L I-4/ Electric
Horsepower	403
Torque, lb-ft	981
EPA est. mpg	300range
Drive wheels	rwd
Wheelbase, in	n/a
Curb Weight, lb	n/a
Transmission	n/a

*See dealer for updated pricing and specs

The Karma Revero delivers exhilarating performance thanks to its lightweight aluminum spaceframe construction and the near limitless torque produced by the car's dual electric motors. Acceleration off the line is linear, smooth and swift. Revero has a hybrid powerplant, which means it will run on gas or electricity, easing range concerns. The Revero's Lithium-ion battery powers its electric motors to turn the rear wheels - giving up to 50 miles of pure-electric driving range. After that, the internal combustion engine engages to generate energy and propel the vehicle to a total 300 mile range.

\$31,890 - \$45,290

Kia Cadenza

Engine	3.3L V6

The Lamborghini Aventador is available in 4 models, including both a Coupé and Roadster version. The Roadster maintains the coupe's breathtaking acceleration, sheer power and handling prowess. In an enhancement to the Superveloce Coupé experience, the Superveloce Roadster features a power rear window that allows the free-flowing engine sound to fill the cabin with invigorating tones and harmonics during spirited driving.

\$2,500,000

Lamborghini Centenario

Engine	6.5L V12
Horsepower	760
Torque, lb-ft	508
EPA est. mpg	11/13
Drive wheels	awd
Wheelbase, in	103.2
Curb Weight, lb	3358
Transmission	7AM

Meet the Lamborghini Centenario. It is a 40 unit limited-edition supercar that represents a new, extremely precious piece in Lamborghini's one-off strategy. It's based on the Aventador, though measures in slightly longer. It is a perfect example of the innovative design and the engineering skills of the bull-branded manufacturer. The Centenario has been conceived with the purpose of exploring new technological and design opportunities, and to look at the future through the lens of innovation. One of the most exclusive (and sought-after) cars in the whole world, all 40 Centenarios were sold before the car was ever shown.

\$204,595 - \$267,695

Lamborghini Huracán

Engine	5.2L V10
Horsepower	610
Torque, lb-ft	412
EPA est. mpg	14/21
Drive wheels	awd, rwd
Wheelbase, in	103.2
Curb Weight, lb	3135
Transmission	7AM

As standard, both the Lamborghini Huracán Coupé and Spyder version include cylinder deactivation to improve engine efficiency. When full engine capacity is not required, five of the ten cylinders are temporarily deactivated by switching off one cylinder bank. When the driver accelerates, the system switches back instantaneously to ten-cylinder mode, while being virtually impossible to detect by the driver. Lamborghini announced three new After Sales packages for its Huracán models, available for both all-wheel and rear-wheel drive variants.

Perfect for road trips.

**Order The Inquirer Replica Edition
and take the paper in your pocket.**

You might not know about The Inquirer Replica Edition, but you should know it absolutely rocks on the road.

The Replica Edition is not just the *Inquirer* online – like, say, reading it on a website – it's the *Inquirer* online looking just like the *Inquirer* you hold in your hands. Every page, every ad, every picture ... but with cool tricks like being able to enlarge stories ... like being able to search by keywords and navigate instantly ... like being able save or print or email specific stories and pictures ... like being able to translate it into a different language. Plus, it's ecologically friendly and, quite frankly, pretty neat.

It's available wherever there's internet and delivered as soon as the news – the factual, real news – is ready to roll. It works on computers, tablets and smartphones. And at around 25¢ a day, it's not only a bargain, you can order it up in minutes.

So if you're hitting the road, take The Inquirer Replica Edition with you. You have the green light.

It's just 25¢ a day!

Designed from the outset as a dedicated hybrid model, the Lexus CT 200h provides a roomy cabin within its compact exterior dimensions. For 2017, Lexus gives the CT 200h some distinctive new colors, including Atomic Silver, Caviar, Autumn Shimmer and Blue Vortex Metallic. The CT 200h brought Lexus hybrid technology and benefits to a whole new segment and also became the brand's entry model. "Entry" is a relative term; the CT 200h never lets you forget it's a Lexus.

The Lexus ES 350 received a significant style and cabin freshening for 2016, and for 2017 also adds the Scout® GPS Link to its standard Display Audio system. With the app on the driver's smartphone, navigation maps and turn-by-turn directions appear on the car's central display screen. It's one more way that Lexus keeps its vehicles in tune with its customers. An integrated Lexus Navigation System remains an option for the ES 350. Lexus Safety System+, now standard, includes Pre-Collision System (PCS), Lane Departure Alert (LDA) with Steering Assist, Intelligent High Beam (IHB) and High-Speed Dynamic Radar Cruise Control.

The styling, performance and craftsmanship of the new 2018 Lexus LC 500 clearly position it as the flagship coupe of the Lexus lineup. Inspired by the acclaimed LF-LC concept that debuted in 2012, the LC represents a shift in Lexus' engineering processes and design direction, and marks the beginning of a new phase for the Lexus brand. Following the world premiere of the V8-powered LC 500, Lexus introduced the All-New LC 500h, which features the world's first Multi Stage Hybrid System, the next generation of hybrid powertrains specifically designed for performance vehicles.

In the all-new 2017 Mazda CX-5, every aspect of performance was further polished to provide not only the driver but all who ride in the car with a truly pleasing experience. The efforts included refinements to the powertrain and handling, ride comfort, and quietness, leading to lively performance as well as comfort for all passengers. Newly added active safety functions and features enable Mazda's i-ACTIVSENSE advanced safety technologies to lend yet greater assistance to the driver in identifying potential risks early on, and to reduce chances of damage or injury.

**\$31,520 - \$44,015****Mazda CX-9**

Engine	2.5L I-4
Horsepower	227/250
Torque, lb-ft	310
EPA est. mpg	22/28
Drive wheels	fwd, awd
Wheelbase, in	115.3
Curb Weight, lb	4054
Transmission	6A

The Mazda 2017 CX-9 is a midsize three-row crossover SUV that defies the conventional design cues and cumbersome driving experience expected of vehicles in its class. The focus is on authenticity; an experience rather than simply another commodity conveyance. With the new CX-9, engineers sought to instill driving dynamics befitting of a Mazda - agile handling, tight steering and a responsive, controllable powertrain. Just as CX-9 did ten years ago, the second-generation redefines expectations, aiming to be uncompromising in any aspect a family may need or an individual may desire.

**\$24,915 - \$34,925****Mazda MX-5/RF**

Engine	2.0L I-4
Horsepower	155
Torque, lb-ft	148
EPA est. mpg	27/34
Drive wheels	rwd
Wheelbase, in	90.9
Curb Weight, lb	2332
Transmission	6M, 6A

An extension of the MX-5 family, the 2017 Mazda MX-5 RF fully embodies the core value of "Lots of Fun" that has defined MX-5 throughout its 27-year history. This new two-seater sports car features a unique fastback design and offers an exhilarating open-air feel. MX-5 RF was introduced with a color combination that will be exclusive to MX-5 RF versus the MX-5 soft top: Machine Gray Metallic paint color, Auburn Nappa leather interior trim with a hand-painted black roof panel, based on the Grand Touring trim level. For 2017, all MX-5 Club models will come standard with Blind Spot Monitoring and Rear Cross Traffic Alert.

**\$165,000****McLaren 540C**

Engine	3.8L V8
Horsepower	533
Torque, lb-ft	398
EPA est. mpg	n/a
Drive wheels	rwd
Wheelbase, in	105.1
Curb Weight, lb	2890
Transmission	7A

Completely driver-centric and performance oriented, the McLaren 540C Coupé is equally at home on the track as it is on the open road. Being light weight with a high power to weight ratio, it delivers a super car punch that would shame many more expensive rivals. Even if you take for granted 0-124 mph in a scarcely believable 10.5 seconds, nothing prepares you for the thrill of the 540C Coupé's race-bred dynamics. The McLaren Sports Series 540C offers everyday convenience in the ergonomically designed interior.

**\$187,300 - \$201,450****McLaren 570S/GT**

Engine	3.8L V8
Horsepower	562
Torque, lb-ft	443
EPA est. mpg	16/22
Drive wheels	rwd
Wheelbase, in	105.1
Curb Weight, lb	3175
Transmission	7A

There are two members of the McLaren 570 family: the 570S and the 570GT. The S is sportier, while the GT is set up for long-distance-driving comfort. Both models have a twin-turbo 3.8-liter V8 making 562 hp and 443 lb-ft of torque, mounted behind the cabin; a carbon-fiber tub reduces weight and adds strength. A sequential seven-speed gearbox drives the rear wheels. The S is faster to 62 mph by 0.2 seconds; both models have a top speed of 204 mph.

**\$273,600 - \$288,600****McLaren 650S**

Engine	3.8L V8
Horsepower	641
Torque, lb-ft	500
EPA est. mpg	16/22
Drive wheels	rwd
Wheelbase, in	105.1
Curb Weight, lb	2932
Transmission	7A

Available as a fixed-head Coupé or as a Spider, with a retractable folding hard-top, the McLaren 650S promises to redefine the high performance supercar segment, and has been designed and developed to provide the ultimate in driver engagement on the road and on the race track. The McLaren 650S Spider's dihedral doors bring drama and aerodynamic efficiency, its stunning all-LED headlamps help to save fuel and its retractable hardtop roof has been painstakingly engineered to minimize weight and maintain an excellent center of gravity.

Transmission	7A	9A	7A

Athletic and sporty, the vivid, sensual design of the new 2017 Mercedes-Benz C-Class Coupe cuts a fine figure on the road and embodies modern luxury. At the same time, its interior raises elegance and style to a sporty level. Mercedes-Benz is launching into the open-air season with the first cabriolet based on the C-Class with a classic fabric soft top. As the new entry-level model into the cabriolet world of Mercedes-Benz, the C300 Cabriolet is available in both rear-wheel drive and 4MATIC drivetrains. The C-Class will also enjoy the all-new AMG 43 series as the AMG C43 Sedan, Coupe and Cabriolet join the lineup.

\$32,400 - \$49,950

The Mercedes-Benz CLS, the car that pioneered the much-imitated four-door coupe design theme in the luxury category, received an extensive upgrade for 2015. Now, for the 2017 model year, all non-AMG models receive the Mercedes-Benz developed 9G-TRONIC 9-speed automatic transmission, previously available on only the CLS550 and CLS550 4MATIC. The striking design of the second-generation model is anchored by classic coupe proportions, which emphasize a long hood, frameless side windows and sweeping roofline. The CLS was also the first vehicle to offer the LED Intelligent Light System as an option.

Mercedes-Benz is taking a big step into the future with the new 2017 E-Class. The tenth-generation of the E-Class sedan delivers stylish highlights with its distinct, emotional design and high-grade interior. The new E-Class also marks the world premiere of numerous technical innovations, enabling enhanced comfort, a new level of safe driving, a new dimension in driver assistance and a new infotainment and control system. For 2017, Mercedes-AMG presents a new member of the E-Class family, the AMG E43, while the next generation, 2018 AMG E63 and AMG E63 S will arrive in showrooms mid-summer 2017.

New for the 2017 model year, the Mercedes-Benz G550 4x4 will join the Mercedes-Benz family of SUVs in the United States. The 4x4 is the most capable G-Class ever, boasting innovative portal axles, three locking differentials, a ground clearance of more than 17" and a 4.0L V8 biturbo engine. The G-Class today is considered the top model among luxury-class cross-country vehicles, and has provided the gene pool for other very successful SUVs built under the Mercedes-Benz brand. A comprehensive range of features ensures that this classic cross-country vehicle remains in a class of its own in the off-road sector.

With its progressive design, comfortable everyday driving, off-road capability and versatility, the Mercedes-Benz GLA is a decidedly progressive interpretation of the compact SUV. The 2017 GLA delivers new infotainment features, user technology and additional standard amenities. The first Mercedes-Benz in the fast-growing compact SUV segment, the GLA is highly maneuverable around town, lively on country roads and athletic and efficient on the highway. The GLA's flexible interior offers a generous luggage compartment that can be loaded easily thanks to the standard power liftgate, wide cargo opening and low loading sill.

Mercedes-Benz has combined two classes of vehicle – each with its own distinct style – to make a new model, the 2017 Mercedes-Benz GLE Coupe. The sporty nature of a coupe dominates, imbued with the striking characteristics of a robust SUV. The Mercedes-AMG GLE43 Coupe features an AMG-enhanced 3.0L V6 biturbo engine that produces 362 hp and 384 lb-ft of torque, while the Mercedes-AMG GLE63 S Coupe features a handcrafted AMG 5.5L V8 biturbo engine producing 577 hp and 561 lb-ft of torque. GLE SUV models for 2017 include GLE350, GLE350 4MATIC, GLE 550e Plug-in Hybrid, AMG GLE63 and AMG GLE63 S.

Like the GL before it, the new 2017 Mercedes-Benz GLS is setting standards in the world of the SUV as it confirms its position as the "S-Class among SUVs." The full-fledged seven-seater boasts ample spaciousness and combines luxury with impressive levels of comfort, agile dynamics and best-in-class safety. Compared with its predecessor, the new generation features improved efficiency, additional DYNAMIC SELECT transmission modes, improved air suspension system, 9G-TRONIC 9-speed automatic transmission, state-of-the-art assistance systems, internet access and remote-start capability.

Drive wheels	rwd	rwd
Wheelbase, in	95.7	95.7
Curb Weight, lb	3296	3541
Transmission	9A	9A

The innovative Mercedes-Benz SLC engines combine fire-breathing power with free-breathing efficiency. Both the 241 hp 2.0L turbo-4 in the SLC300 and AMG-infused 362 hp biturbo V6 in the SLC43 turn motion into emotion. High driving dynamics and low fuel consumption are not necessarily mutually exclusive, thanks to the combination of a 3.0L V6 biturbo engine and a 9G-TRONIC transmission, the 362 hp roadster is more fuel-efficient than its predecessor, the SLK55 with a naturally aspirated V8 engine. The SLC43 is also the most efficient six-cylinder performance roadster on the market.

The 2017 MINI Clubman, the largest and most sophisticated MINI ever built, ushers in a new era of motoring with comfortable seating for five, iconic split rear doors that open with a foot-activated sensor, and a top-shelf interior outfitted with premium materials and cutting-edge technology. The addition of the ALL4 all-wheel drive variant demonstrates how the MINI Clubman offers exceptional versatility. It combines all the advantages of an all-wheel drive system – traction, directional stability and driving – with classic MINI go-kart handling.

QUALITY YOU CAN FEEL.

It's a simple test. Open and close the door of any car and you can usually get a good sense of how well built that car is. So don't be shy. We love it when people slam our doors. Because the moment someone experiences a MINI's solid feel and precision, they begin to understand our premium difference. No wonder MINI models are among the best in the industry at retaining their value over the long haul.

The MINI Countryman is all-new for 2017, and is the biggest and most adventurous MINI ever. The ALL4 offers an all-turbocharged engine lineup with outstanding acceleration and the go-kart driving dynamics that MINI owners have come to know and love. At the same time, this new architecture delivers excellent ride quality and enables the most spacious MINI interior ever. With an option to plug in, the MINI Cooper S E Countryman ALL4 has a 3-cylinder gasoline engine that works in tandem with a powerful electric motor to produce a combined peak output of 221 hp, with the e-rear axle enabling all-season ALL4 traction.

\$20,950 - \$30,900

MINI Hardtop/4-Door

	S	JCW
Engine	1.5L I-3	2.0L I-4
Horsepower	134	228
Torque, lb-ft	162	236
EPA est. mpg	28/38	25/31
Drive wheels	fwd	fwd
Wheelbase, in	98.2/101.1	98.2
Curb Weight, lb	2625	2845
Transmission	6M, 6A	6M, 6A

The 2017 MINI Hardtop is available as a two or four-door hatchback. With TwinPower Turbo engines by BMW, the MINI Hardtop pairs legendary handling with world-class performance engineering. Thanks to advanced standard safety features like head and side-impact airbags and an ultra-rigid frame, all MINIs receive high collision safety marks. The MINI Hardtop's optional driving modes allow you to switch on the fly. Choose from Sport, Green or Mid settings to emphasize performance, fuel-efficiency or a perfect balance.

\$23,550 - \$35,600

MINI Paceman

	S	JCW
Engine	1.6L I-4	1.6L I-4
Horsepower	121	208
Torque, lb-ft	118	192
EPA est. mpg	n/a	25/30
Drive wheels	fwd	awd
Wheelbase, in	102.2	102.2
Curb Weight, lb	2940	3260
Transmission	6M, 6A	6M, 6A

With striking exterior lines, premium technology and optional ALL4 all-wheel drive, the 2017 MINI Paceman looks sharp and handles even sharper. The front seats have added support, while both full-fledged rear chairs have armrests and an excess of elbow room. MINI Connected features a high-resolution 6.5" or optional 8.8" display that's designed to seamlessly integrate all technology into your MINI. The optional Park Distance Control uses ultrasonic waves emitted from sensors in the rear bumper to measure the distance between your MINI and any objects in its rearward path.

Mitsubishi i-MiEV

Engine	Electric
Horsepower	66
Torque, lb-ft	145
EPA est. mpg	126/99e
Drive wheels	rdw
Wheelbase, in	100.4
Curb Weight, lb	2579
Transmission	1A

The Mitsubishi i-MiEV is a fully electric car. The internal combustion gasoline engine has been entirely replaced with a clean, efficient Mitsubishi electric motor and a high-tech drivetrain that produce zero on-road emissions - all kinds of good times. The Mitsubishi i-MiEV is the most affordable electric car in the United States. And being 100% electric means no paying for gas, oil changes, transmission overhauls, or combustion-engine specific maintenance.

\$17,595 - \$23,595

Mitsubishi Lancer

Mitsubishi Mirage

Engine	1.2L I-3
Horsepower	78
Torque, lb-ft	74
EPA est. mpg	37/43
Drive wheels	fwd
Wheelbase, in	96.5
Curb Weight, lb	2073
Transmission	5M, CVT

Mitsubishi unveiled the all-new 2017 Mitsubishi Mirage G4. A sibling to the well-established and popular Mirage hatchback, the all-new Mirage G4 brings consumers a fresh dose of clean style, environmental consciousness, agility, connectivity, affordability and value. The Mirage G4 goes on sale this spring at Mitsubishi showrooms across the country. Despite all that is new for Mirage in 2017, a few things didn't change at all—Mirage still offers impressive fuel economy, attractive pricing and industry-leading new vehicle and powertrain warranties.

\$19,795 - \$31,695

Mitsubishi Outlander/Sport

	GT	Sport
Engine	2.4L I-4	2.0L I-4

Transmission	CVT	6A

Every angle of the new 2017 Mitsubishi Outlander has impressive features. The new Multi-View Camera System allows you to see a 360 degree, bird's eye view of your vehicle as you back up out of a parking spot or driveway. The 2017 Outlander goes beyond seating seven passengers with its standard third row. It features sophisticated upgrades, like available heated front seats and steering wheel, and front dual-zone automatic climate. Whether you're heading out for a grand adventure or the smallest errand, Outlander Sport is up for the challenge and is equipped with All-Wheel-Control for superior handling.

\$29,990 - \$48,100

Nissan 370Z/NISMO

	NISMO
Engine	3.7L V6
Horsepower	332
Torque, lb-ft	270
EPA est. mpg	19/26
Drive wheels	rwd
Wheelbase, in	100.4
Curb Weight, lb	3292
Transmission	6M, 7A

The 2017 Nissan 370Z offers extraordinary performance, design and an unmatched heritage as one of the most iconic sports cars in automotive history. It is available in four well-equipped trim levels: 370Z, 370Z Sport, 370Z Sport Tech and 370Z Touring, with no available option packages. Also available are the Nissan 370Z NISMO and 370Z NISMO Tech, along with three 370Z Roadster models. Enhancements for the 2017 model year include the addition of a new Chicane Yellow exterior color.

\$22,500 - \$32,690

Nissan Altima

	2.5L I-4	3.5L V6
Engine	2.5L I-4	3.5L V6
Horsepower	179	270

Drive wheels	fwd	fwd
Wheelbase, in	109.3	109.3
Curb Weight, lb	3197	3412
Transmission	CVT	CVT

The Nissan Altima shook up the mid-size sedan segment in the 2016 model year in one of the most extensive mid-cycle makeovers in Nissan history – with revised styling, enhanced performance and new safety features. For 2017, Altima embraces Nissan's bold design language expressed by the low muscular front fascia, distinctive "V-motion" grille and deep bumpers. Inside, the 2017 Altima features a refined, personal space interior, which shares the "gliding wing" design language established with the Murano and Maxima.

\$44,900 - \$60,490

Nissan Armada

Engine	5.6L V8
Horsepower	390
Torque, lb-ft	394
EPA est. mpg	14/19
Drive wheels	rwd, 4wd
Wheelbase, in	121.1
Curb Weight, lb	5576
Transmission	7A

The all-new 2017 Nissan Armada is built on the heritage of the Nissan Patrol, which has been a workhorse for the world for many decades. While it is intended primarily for family adventures, Armada remains true to its roots as a strong, durable and authentic full-size, 8-passenger SUV. The new Armada is available in a range of three high-content grade levels – SV, SL and Platinum – in both 2-wheel and 4-wheel drive configurations. 2017 brings a fresh exterior design, enhanced performance from a new 5.6-liter Endurance® V8 with 390 hp and new 7-speed automatic transmission, and a comfortable full-feature cabin.

\$18,390 - \$32,580

Nissan Frontier

	2.5L I-4	4.0L V6
Engine	2.5L I-4	4.0L V6
Horsepower	152	261
Torque, lb-ft	171	281
EPA est. mpg	19/23	17/22
Drive wheels	rwd	rwd, 4wd
Wheelbase, in	125.9	125.9
Curb Weight, lb	3766	4229
Transmission	5M, 5A	6M, 5A

Every Frontier starts with a full-length, fully boxed ladder frame, then adds a choice of two powerful engines mated to either a 5- or 6-speed manual or 5-speed automatic transmission. Then throw in a heavy-duty suspension, including available off-road tuned Bilstein® high-pressure performance gas shock absorbers and skid plates (PRO-4X grade), and either 4x2 or 4x4 drive. Then add in an available 5.0-inch color display or NissanConnect with Navigation and Mobile Apps, and you start to understand why Frontier continues to be a leader in the mid-size truck segment.

\$109,990 - \$174,990

Nissan GT-R/NISMO

		NISMO
Engine	3.8L V6	3.8L V6
Horsepower	565	600
Torque, lb-ft	467	481
EPA est. mpg	16/22	16/23
Drive wheels	awd	awd
Wheelbase, in	109.4	109.4
Curb Weight, lb	3933	3911
Transmission	6AM	6AM

2017 marks the most significant change to Nissan's flagship super sports car since it was introduced in 2007. The 2017 GT-R's exterior receives a thorough makeover. These exterior changes result in a sportier and sharper looking car – as well as an aerodynamically efficient one with more stability at high speeds, while keeping a 0.26 drag coefficient. Now in its third year of availability, the race-oriented 2017 Nissan GT-R NISMO delivers factory-tuned supercar dynamics with advanced aerodynamics and ultra-precise handling.

\$20,250 - \$30,020

Nissan JUKE

		NISMO RS
Engine	1.6L I-4	1.6L I-4
Horsepower	188	215/211
Torque, lb-ft	177	210/184
EPA est. mpg	28/32	26/31
Drive wheels	fwd, awd	fwd, awd
Wheelbase, in	99.6	99.6
Curb Weight, lb	2977	2913
Transmission	CVT	6M, 6A

Since its launch, the Nissan JUKE has stood out from other sport crossovers with its fiercely sculpted headlights and hood, muscular lines, hidden rear door handles and fluid rear hatchback design. For 2017, JUKE again pushes the boundaries of design with its signature premium and sporty performance cues. Inside, the distinctive JUKE interior combines bold design with traditional hatchback functionality. In the rear is a 60/40-split fold-down bench seat. The 2017 Nissan JUKE is offered in a range of five models – S, SV, SL, NISMO and NISMO RS. Each grade level is available in All-Wheel Drive or Front-Wheel Drive.

\$30,680 - \$36,790

Nissan LEAF

Engine	Elec.
Horsepower	107
Torque, lb-ft	187
EPA est. mpg	124/101e
Drive wheels	fwd
Wheelbase, in	106.3
Curb Weight, lb	3323
Transmission	1A

The Nissan LEAF continues to be the best-selling 100-percent electric vehicle in the U.S. and the world. For 2017, Nissan provides best-in-class range across all three trim levels – S, SV and SL – by offering the 30 kWh battery that was previously only available on LEAF SV and SL grades. All 2017 LEAF models feature a high-response, 80kW AC synchronous motor that generates 107 hp and 187 lb-ft of torque, providing a highly responsive, fun-to-drive experience that consumers often expect from traditional, gasoline-powered vehicles.

\$32,560 - \$39,990

Nissan Maxima

Engine	3.5L V6
Horsepower	300
Torque, lb-ft	261
EPA est. mpg	21/30
Drive wheels	fwd
Wheelbase, in	109.3
Curb Weight, lb	3478
Transmission	CVT

The eighth generation Nissan Maxima, which was completely revised for the 2016 model year, is enhanced for 2017 with the addition of standard Apple CarPlay™ iPhone® connectivity, becoming the first Nissan vehicle to add the industry standard in smartphone connectivity. In addition, two new accessory value packages, the Medallion Package and Dynamic Package, join the previous Midnight Edition in offering buyers a convenient way to customize their Maxima straight from the dealership. Available in five fully equipped models: Maxima S, SV, SL, SR and Platinum – with a starting MSRP of \$32,560.

\$29,740 - \$40,780

Nissan Murano

Engine	3.5L V6
Horsepower	260
Torque, lb-ft	240
EPA est. mpg	21/28
Drive wheels	fwd, awd
Wheelbase, in	111.2
Curb Weight, lb	3914
Transmission	CVT

The third-generation Nissan Murano has continued to set sales records since its introduction. That trend is expected to continue in 2017 as refinements are made to various content packages – including the addition of Apple CarPlay™ and expanded availability of Driver Attention Alert. What remain unchanged are the popular crossover's concept car-like styling, premium interior and advanced, purposeful technology. Every 2017 Murano comes equipped with an advanced 3.5-liter DOHC V6 rated at 260 hp and 240 lb-ft of torque.

Curb Weight, lb	6694	6789
Transmission	5A	5A

The Nissan NV Cargo is available in three models, NV1500, NV2500 HD and NV3500 HD, and in two roof configurations – Standard Roof and High Roof. The 4-row/12-passenger Nissan NV3500 HD Passenger Van features flexible seating configurations, along with roof-mounted curtain supplemental air bags for side-impact and rollover head protection for all outboard passengers. The Nissan NV200 Compact Cargo van features a small exterior footprint, large cargo capacity, outstanding versatility and excellent fuel efficiency. For the 2017 model year, the NV200 adds standard power door locks and Hill Start Assist (HSA) on all grade levels.

Nissan Pathfinder

Engine	3.5L V6
Horsepower	284
Torque, lb-ft	259
EPA est. mpg	20/27
Drive wheels	2wd, 4wd
Wheelbase, in	114.2
Curb Weight, lb	4292
Transmission	CVT

Pathfinder, one of Nissan's best known and most popular nameplates in its nearly 60-year history in the United States, is reborn for the 2017 model year with more adventure capability, a freshened exterior look and enhanced safety and technology – pure Pathfinder taken to an even higher level of performance, technology and style. The changes for the new model year begin from the A-pillars forward – both with revised sheet metal and the re-engineered 3.5-liter V6 under the new hood design. The new 2017 Pathfinder is available in 4WD and 2WD drive configurations and in four models: S, SV, SL and Platinum.

Curb Weight, lb	2848 3009
Transmission	6M, CVT 6M, CVT

The new 2017 SR Turbo takes Nissan Sentra's performance and fun-to-drive factor to a whole new level. SR Turbo features a new 188 hp 1.6-liter Direct Injection Gasoline (DIG™) turbo engine that provides a 50 percent increase in horsepower versus standard Sentra SR's 1.8-liter non-turbo engine. Based on the popular Sentra SR grade level, which accounts for more than 15 percent total Sentra sales, the new SR Turbo maintains the SR's unique sporty exterior, interior and wheel treatments. Under the skin, however, things get radically different.

The Porsche 911 continues to exemplify the automaker's commitment to the Porsche Intelligent Performance philosophy - improved performance using less fuel with increased efficiency and reduced emissions. The new 2017 911 Carrera, Carrera 4 and Targa models are a prime example of this. Powered by a new, highly efficient 3.0 liter twin turbo flat-six engine, they offer significantly more torque than their naturally aspirated predecessors, bringing performance to a higher level than ever before. The latest addition to the range is the new 2017 911 Turbo with up to 580 horsepower.

GREATER PHILADELPHIA

TECH COMP

THE 24th ANNUAL AUTOMOTIVE TECHNOLOGY COMPETITION

\$1,000,000
IN SCHOLARSHIPS & PRIZES

The Auto Dealers CARing for Kids Foundation is proud to host the
24th Annual Greater Philadelphia Automotive Technology Competition.

This two-part competition challenges, tests and inspires high school seniors interested in automotive technology. Congratulations to these 24 students who qualified for the hands-on contest. The rewards help these aspiring technicians to continue their education and prepare for a high-tech career in automotive repair and maintenance.

Torque, lb-ft	280	309	
EPA est. mpg	22/29	21/28	
Drive wheels	rwd	rwd	
Wheelbase, in	97.4	97.4	
Curb Weight, lb	2944	2988	
Transmission	6M, 7A	6M, 7A	

Twenty years after the first Boxster made its debut, Porsche is introducing the latest generation of its mid-engine roadster featuring more power and even better handling. The new models are named 718 Boxster and 718 Boxster S. The centerpiece of the latest model range is the newly developed, turbocharged flat four-cylinder engine. The 718 Boxster generates 300 hp from two liters of displacement, while the 718 Boxster S uses a 2.5 liter engine developing 350 hp. Thanks to the significant increase in torque, the new 718 Boxster models offer superior acceleration compared to their predecessors.

\$58,300 - \$157,300

Porsche Cayenne

Transmission	8A	8A	8A	8A

See dealer for complete model lineup

Every Porsche is a sports car. The Cayenne has embodied this DNA ever since it was introduced in 2002. In the Sport Utility Vehicle (SUV) segment, each Cayenne generation has successively raised the bar to a new higher level. The new Cayenne GTS and the new Cayenne Turbo S are excellent examples. The GTS and Turbo S take their skills to a new level. The Cayenne Turbo S is the top model of the series, and it stands for exclusiveness and superlative performance. It offers 570 hp of power, 590 lb-ft of torque and a chassis that is equipped with all of the systems available in the model series as standard equipment.

\$53,900 - \$70,550

Porsche Cayman

	S	GTS	GT4

Transmission	6M, 7A	6M, 7A	7A, 6M

With the 2017 718 Cayman, Porsche is introducing the third generation of the mid-engine sports coupe. Like the 2017 718 Boxster, the 718 Cayman is powered by new turbocharged flat four-cylinder engines. Visually and technically, the 718 Boxster and 718 Cayman are closer than ever before. The completely retuned chassis, larger brakes and the distinctive sound enhance agility as well as driving pleasure. Sharper styling and an upgraded interior give the 718 Cayman a more striking and athletic appearance. For the first time, the 718 Cayman is now priced below the 718 Boxster.

The 2017 Porsche Macan features a 252 hp turbocharged four-cylinder engine mated to Porsche's famous PDK transmission and all-wheel drive system, Porsche Traction Management. The Macan S, with its 340 hp 3.0L twin-turbo V6 engine can sprint from zero to 60 mph in 5.2 seconds. The Macan GTS increases power to 360 hp, and fits the performance-oriented Porsche Active Suspension Management and air suspension as standard equipment. The Macan Turbo is equipped with a slightly larger 3.6L twin-turbo V6 engine and offers increased power (400 hp) and a faster zero to 60 mph time (4.6 seconds).

For 2017, the Porsche Panamera sports sedan introduces two all-new models with familiar names: the Panamera 4S and Panamera Turbo. Along with two new engines, both vehicles feature an all-new chassis and interior concept. The new Panamera brings the Porsche flyline to the four-door body style by lengthening and widening the visual impact of the new chassis. The front wheels were moved forward and the rear of the roof line was lowered, thereby creating a longer and sleeker profile. The newest plug-in hybrid sports sedan breaks the 0-60 mph barrier in just 4.4 seconds.

Ram Truck builds America's longest-lasting pickups. In the heavy-duty pickup segment, that also equates to the most capability, highest towing and most power. For 2017, Ram continues to offer the most capable three-quarter and one-ton pickups in the segment with 31,210 pounds of towing, 7,390 pounds of payload and 900 lb-ft of torque. Ram 2500 and 3500 Heavy Duty trucks also offer more innovative features and better ride quality, including a five-link coil suspension with optional air suspension on Ram 2500 and a supplemental air bag suspension option on Ram 3500.

The ProMaster is Ram Commercial's Class 2 full-size van. It benefits from an exclusive front-wheel-drive system, reducing weight and complexity by locating all components beneath the cab. It is available in 1500, 2500, and 3500 Cargo Van models and 2500 and 3500 Window Van models with three wheelbase and two roof height options. The ProMaster City is Ram Commercial's Class 1 van that offers modern styling and professional appeal in a small, capable package. It is available as two-seat Tradesman Cargo and Tradesman Cargo SLT and five-seat Wagon and Wagon SLT.

**\$335,000****Rolls-Royce Dawn**

Engine	6.6L V12
Horsepower	563
Torque, lb-ft	575
EPA est. mpg	12/19
Drive wheels	rwd
Wheelbase, in	122.5
Curb Weight, lb	5644
Transmission	8A

The Rolls-Royce Dawn maintains timeless Rolls-Royce design principles – 2:1 wheel height to body height, a long bonnet, short front overhang, a long rear overhang, an elegant tapering rear graphic and a high shoulder line. The Rolls-Royce Dawn stands apart from its stable mates, featuring 80% unique body panels. The engineering highlight of the Rolls-Royce Dawn is the roof. Of particular note is how the canopy wraps around the rear seats and down over the window tops of Dawn thereby optically lowering the roofline of the car to contribute to its low-slung appearance.

**\$295,850 - \$331,825****Rolls-Royce Ghost**

Engine	6.6L V12

Torque, lb-ft	575
EPA est. mpg	13/21
Drive wheels	rwd
Wheelbase, in	129.7-136.4
Curb Weight, lb	5490
Transmission	8A

Alive with cutting-edge technology, the Rolls-Royce Ghost is one of the most advanced cars ever built. The essence of simplicity with signature levels of luxury, Ghost forges a silent path with effortless power. Which leaves only one question: drive or be driven? Extraordinary may be a high standard to set. But, in the case of Ghost, it is merely the benchmark. Advanced engineering and a host of hidden technologies make Ghost modern and dynamic. And its endless surge of power and whisper-quiet ride set it streets apart from other motor cars.

**\$417,825 - \$492,000****Rolls-Royce Phantom/Coupe/Drophead**

Subaru BRZ

Engine	2.0L Flat-4
Horsepower	200/205
Torque, lb-ft	151/156
EPA est. mpg	24/33
Drive wheels	rwd
Wheelbase, in	101.2
Curb Weight, lb	2785
Transmission	6M, 6A

The Subaru BRZ is revised for 2017 giving its rear-drive sports car improved handling, increased performance, more aggressive styling and new convenience features. When equipped with the standard 6-speed manual transmission, the 2017 Subaru BRZ features a revised 2.0-liter 4-cylinder Boxer engine. The revised engine delivers more low-end and midrange torque than before, and, combined with the new 4.30:1 axle ratio in the Torsen® limited-slip differential, delivers quicker acceleration and enhanced responsiveness. Incline Start Assist helps prevent roll back on an incline as the driver begins to accelerate from a stop.

Drive wheels	awd	awd
Wheelbase, in	103.9	103.9
Curb Weight, lb	3322	3349
Transmission	6M, CVT	CVT

The exterior of the 2017 Subaru Forester receives several updates, including a refined front bumper cover and a new hexagonal grille. The redesigned headlights have a sleeker look with Subaru's signature C-shaped motif and a black inner bezel, while the rear combination lights also feature a prominent C shape with LED illumination. Combined, these new styling and lighting elements provide excellent forward visibility along with a more robust and distinctive look. All 2017 Forester models now feature an updated steering wheel design with intuitive audio, Bluetooth® and cruise control switches.

\$18,395 - \$24,595

Subaru Impreza

Engine	2.0L Flat-4
Horsepower	152
Torque, lb-ft	145
EPA est. mpg	28/37
Drive wheels	awd
Wheelbase, in	105.1
Curb Weight, lb	2974
Transmission	CVT

The all-new 2017 Subaru Impreza debuts Subaru Global Platform architecture that's designed to deliver significantly higher levels of driving pleasure, agility, crash protection and ride comfort and will underpin a variety of upcoming Subaru vehicles. New 105.1-inch wheelbase is up 1.0-inch over outgoing Impreza. Both Sedan and 5-Door are 1.6-inch longer than the outgoing models, and both are 1.5-inch wider for a roomier cabin, while a 0.4-inch lower height helps improve aerodynamics. Crash energy absorption improved by 40 percent over the outgoing Impreza model.

Wheelbase, in 109.8	109.8	109.8
Curb Weight, lb 4165	4370	4825
Transmission 6A	8A	ECVT

For 2017, Toyota Highlander's value is significantly enhanced thanks to an array of technologically advanced safety, performance and convenience features added as standard equipment, enhanced styling, and competitive pricing. The Highlander brings a new-for-2017 SE grade that brings a premium, sporty personality to the lineup. Not to be outshined by its gas-sipping siblings, the Highlander Hybrid adds two additional entry-level grades -- LE and XLE -- to its popular range. All Highlander models receive revised front and rear styling and enhanced interior convenience and comfort.

Curb Weight, lb	5815
Transmission	8A

Fresh from its 2016 redesign, the Toyota Land Cruiser cruises into 2017 unchanged. Toyota's flagship SUV continues to offer a full assortment of standard luxury amenities and advanced Toyota Safety Sense™-P (TSS-P) technologies, all packaged inside an updated, understated, and bold design. Since its American market introduction six decades ago, the Land Cruiser has evolved into one of the most luxurious full-capability SUVs. Its blend of premium appointments and uncanny off-road aptitude has made the Land Cruiser an immensely versatile machine that's adored by its loyal and discerning customers the world over.

The fourth-generation Toyota Prius enters its second year (and celebrates the 20th anniversary of its debut in Japan) as other carmakers are introducing their first hybrids. Meanwhile, the Prius liftback is one of eight Toyota hybrid models offered for 2017. The Prius still sets the bar for hybrid fuel economy, and it's a high bar, indeed. The 2017 Prius Eco model is anticipated to receive EPA-estimated fuel economy ratings of 58 mpg city / 53 mpg highway. The Toyota Prius delivers mid-size room in a compact package. Offered in six model grades, the Prius caters to a wide variety of tastes and needs.

**\$24,910 - \$36,150****Toyota RAV4**

Wheelbase, in	104.7
Curb Weight, lb	3455
Transmission	6A

The 2017 RAV4 and RAV4 Hybrid will feature Toyota Safety Sense™-P (TSS-P) as standard on all grades. TSS-P includes Pre-Collision System with Pedestrian Detection, Automatic High Beams, Lane Departure Alert with Steering Assist, and Dynamic Radar Cruise Control. One new grade, Platinum, joins the RAV4 gas lineup. The RAV4 Platinum will offer a premium option to customers seeking the highest level of style, technology and luxury from a small SUV. One new exterior color, Galactic Aqua Mica, replaces Hot Lava and will be available on both gas and hybrid models.

**\$45,460 - \$65,215****Toyota Sequoia**

Curb Weight, lb	5730
Transmission	6A

The 2017 Toyota Sequoia maintains its position as a full-size SUV that's big on roominess, power, and capability. The 2017 Sequoia is perfect for customers who want it all: roominess, off-road skillfulness, towing capability, and style. No matter its trim – SR5, Limited or Platinum – or drivetrain configuration – two-wheel or four-wheel drive – it is a rolling habitat of comfort and connectivity. The independent suspension makes for the Sequoia's smooth ride. Even with its size, the Sequoia immediately gives the impression of driving "smaller than it is" thanks to its supple ride and 38.1-ft turning diameter.

Transmission	8A

The 2017 Toyota Sienna gets yet another injection of peppiness and efficiency in the form of an all-new direct-injection V6 engine and Direct Shift – 8AT, 8-speed automatic transmission. The new-for-2017 upgrades improve the original "Swagger Wagon's" comfort, performance, and fuel efficiency. The Sienna remains ever the family-friendly van, with the choice of 7- or 8-seat cabin configurations, up to a massive 150 cu. ft. of carrying space, and a comprehensive array of available multi-media systems. It continues to be available in five grades: L, LE, SE, XLE and Limited.

Last year, Toyota introduced an all-new Tacoma. For 2017, Toyota welcomes the all-new Toyota Tacoma TRD Pro. Whether tackling treacherous snow-covered terrain, driving off the beaten path, or surviving extreme conditions where roads fear to tread, the Tacoma TRD Pro will be up for any challenge. The 2017 Tacoma line includes 31 models based on two cab types, each available in 4x2 or 4x4 configurations. Access Cab models offer under-seat rear storage space, and their fold-up seat cushions maximize carrying space. Double Cab models feature 60/40 split rear seats with adjustable headrests and under-seat storage.

Transmission	6A	6A

With more than four dozen possible configurations and a towing capacity of up to 10,500 pounds, the 2017 Toyota Tundra doesn't do anything in a small way. Such is the case for this full-size pickup truck assembled exclusively in San Antonio, Texas. For 2017, the Texas-bred Tundra's color palette includes Barcelona Red Metallic, Super White, Black, Inferno, and Quicksand. The Limited grade adds two new standard amenities: a 4-way power passenger seat to compliment the 10-way power driver's seat. The Tundra can be powered by one of two available i-Force V8 engines.

\$15,250 - \$18,000

Toyota Yaris

Drive wheels	fwd
Wheelbase, in	98.8
Curb Weight, lb	2315
Transmission	4A, 5M

The 2017 Toyota Yaris is a small car with very big news. The brand's least expensive model, the Yaris for 2017 is also the brand's latest vehicle to come standard with Toyota Safety Sense™-C (TSS-C), a trio of driver assist technologies that help drivers get from point "A" to point "B" with safety assurance. Yaris offers both three-door and five-door body styles. The Yaris gets its solid road feel from a rigid body structure that also forms the foundation for a quiet ride.

*See dealer for more information as it becomes available

The 2018 Volkswagen Atlas will go on sale Spring of 2017. Engineered from Volkswagen's award-winning Modular Transverse Matrix architecture, the Atlas draws on the latest Volkswagen design DNA to create a bold new look in the SUV segment. At 198.3 inches long, 77.9 inches wide, and 69.6 inches high, Atlas is larger than any other Volkswagen on sale in the U.S., yet it retains classic proportions and clean lines that create a sense of timelessness and precision. Up front, standard LED headlights and LED Daytime Running Lights combine for a unique visual signature, with optional LED taillights to complete the look.

\$19,995 - \$32,550

Volkswagen Beetle

Engine	1.8L I-4	R-Line 2.0L I-4
Horsepower	170	210
Torque, lb-ft	184	207
EPA est. mpg	24/33	23/29
Drive wheels	fwd	fwd
Wheelbase, in	100	100
Curb Weight, lb	3012	3056
Transmission	5M, 6A	6M, 6A

When the first Beetle rolled off the production line, it was simply called the Volkswagen—"the people's car"—but its distinctive shape inspired nicknames across the globe and, in the end, Beetle stuck. In total, 21.5 million cars were sold, making it the most popular car manufactured off a single platform of all time. Now, even after more than 60 years of being sold in America, the Beetle still rekindles the spirit and imagination of the original for a new generation of Volkswagen owners. A 2017 #PinkBeetle will be offered in limited quantities across the United States.

\$34,475 - \$37,820

Volkswagen CC

Engine	2.0L I-4
Horsepower	200
Torque, lb-ft	207
EPA est. mpg	22/31
Drive wheels	fwd
Wheelbase, in	106.7
Curb Weight, lb	3369
Transmission	6A

The Volkswagen CC's stylized sweeping roofline, dramatic body detailing, low-to-the-ground stance, and elegant frameless side windows, offers expressive, head-turning coupe-like design that is usually seen only in premium, high-priced European cars for the cost of a traditional sedan. New for 2017, the CC 2.0T R-Line Executive comes standard with Lane Departure Warning, Forward Collision Warning and Autonomous Emergency Braking, and Adaptive Cruise Control, while the 2.0T Sport trim gains interior enhancements, such as standard engineered ebony trim and chrome elements.

What A Dealership Should Be

trustwynn.com

2049 West Main Street • Norristown, PA 19403 • 855.346.9530

\$21,580 - \$32,890

Volkswagen Golf SportWagen/Alltrack

Engine	1.8L I-4	1.8L I-4
Horsepower	170	170
Torque, lb-ft	199	199
EPA est. mpg	22/30	25/35
Drive wheels	awd	fwd, awd
Wheelbase, in	103.5	103.5
Curb Weight, lb	3369	3063
Transmission	6A	6A, 6M

The 2017 Volkswagen Golf SportWagen now offers available 4Motion® all-wheel-drive system on the S trimline, with both six-speed manual and six-speed DSG® automatic transmissions. The Alltrack, the derivative of the SportWagen, offers an affordable yet upscale alternative to existing all-wheel-drive wagons that are on the market. The Alltrack uses Volkswagen's powerful yet fuel-efficient 1.8-liter TSI® turbocharged and direct-injected four-cylinder engine. The TSI engine will initially be offered with a six-speed automatic transmission, with a six-speed manual transmission shortly after.

\$17,895 - \$24,995

Volkswagen Jetta

Engine	1.4L I-4	1.8L I-4	GLI
Horsepower	150	170	210
Torque, lb-ft	184	184	207
EPA est. mpg	28/40	25/35	24/33

Wheelbase, in	104.4	104.4	104.4
Curb Weight, lb	2939	3177	3153
Transmission	5M, 6A	6A	6M, 6A

The Volkswagen Jetta lineup is simplified in 2017. The base S trim includes a 1.4-liter, 150 hp TSI® engine, 16-inch steel wheels as standard, along with a rearview camera, LED DRLs, and two-tone cloth seats. It offers optional 16-inch aluminum-alloy wheels, and a cold weather package (heated washer nozzles and heatable front seats). The Jetta GLI is now available in only one trim, with a 2.0-liter, 210 hp TSI engine, standard 18-inch aluminum-alloy wheels, a navigation system, power driver's seat, LED taillights, Park Distance Control, the Fender® Premium Audio System, and Blind Spot Monitor with Rear Traffic Alert.

\$22,440 - \$33,995

Volkswagen Passat

Engine	1.8L I-4	3.6L V6
Horsepower	170	280
Torque, lb-ft	184	258

Drive wheels	fwd	fwd
Wheelbase, in	110.4	110.4
Curb Weight, lb	3263	3571
Transmission	6A	6A

Redesigned in 2016, the Volkswagen Passat sees relatively minor changes for 2017. However, the trim structure has been repositioned, with driver assistance, connectivity, and convenience features being moved into lower trim lines, thus offering a great value story. The R-Line model takes a step up with features that include Composition Media touchscreen radio, Forward Collision Warning and Autonomous Emergency Braking, Blind Spot Monitor with Rear Traffic Alert, a power driver seat, V-Tex leatherette seating surfaces, and heatable front seats.

\$24,995 - \$36,475

Volkswagen Tiguan

Engine	2.0L I-4
Horsepower	200
Torque, lb-ft	207
EPA est. mpg	20/24
Drive wheels	fwd, awd
Wheelbase, in	102.5
Curb Weight, lb	3448
Transmission	6A

Combining a 200 hp turbocharged engine with precision engineering, the Volkswagen Tiguan ups the bar for driving enjoyment in the compact SUV segment. Its solid construction, premium craftsmanship and upscale features add an element of refinement to the versatile vehicle. The 2017 Tiguan adds new trim lines and features that further enhance the model's value story. The Tiguan combines the style and sophistication of a sporty, urban compact SUV that caters to an active lifestyle. At 174.3 inches nose-to-tail, 71.2 inches wide and 66.3 inches tall, it's the perfect size for city dwelling or country living.

\$49,495 - \$60,195

Volkswagen Touareg

Engine	3.6L V6

Transmission	8A	8A	8A

Volvo's first Cross Country sedan debuted starting with the S60 luxury sedan. With 7.9-inches of ground clearance, the new S60 Cross Country is the only truly capable and stylish all-road sedan on the market. Based on Volvo's award-winning S60 architecture, the V60 takes styling to the next level with its dramatic road presence. The pronounced wedge shape and slim coupe-like silhouette create a gentle yet powerful double wave from the headlights at the front to the taillights at the rear.

Volvo has announced a few tweaks for its flagship XC90 crossover for the 2017 model year. The 2017 XC90 will come equipped with the latest version of Volvo's semi-autonomous tech. Known as Pilot Assist II, the updated system allows the 2017 XC90 to accelerate, steer and brake itself at speeds up to 80 mph. The 2017 model year will also see the United States introduction of the super luxurious XC90 Excellence. When you order your XC90 Excellence, a personal assistant will provide premium service, from start to finish.

2014-2015

The Foundation issues a record number of tickets to 2015 Black Tie Tailgate generating a two-year donation of \$900,000 to the Division of Neonatology at The Children's Hospital of Philadelphia.

“I remember when
social media meant
reading a newspaper
at the diner.”

Since 1984 our goal has been to
build a Toyota dealership that
prioritized customer service above
all else. And over the past four
decades we've been honored by Toyota
as one of the nation's top dealerships
for customer satisfaction.

So if you're considering a Toyota,
please give Team Toyota the
opportunity to earn your business.

With \$2 from every Philadelphia Auto Show ticket sold and the support of the new car dealers in the five-county Philadelphia area, more than \$9.3 million has been contributed to enhance and enrich the lives of local children.

CAN A CAR BE DESIGNED AROUND A DRIVER'S INSTINCTS?

Mazda6 Grand Touring interior with Premium Package shown.

THE NEW MAZDA6

Before you lean into a curve, before you command
that straightaway, you just know. The Mazda6
offers driver-centric details in harmony with your
intuitions. Like a steering wheel shaped for optimal
hand position. And available supple Nappa leather
seats that cradle you in comfort. So your drive feels
exactly like you knew it would.
